

UPF & WFWP - about our lecture in “Middle Schools”

Portugal, June 2012

Marta Rodrigues

This report is to inform you about our lecture "The character formation", organized by our peace ambassador prof. Cristina Pêsego. This time the formation took part in the Mayor auditorium, with the Mayor permission. The students were between 12 and 15 years old. There were two sessions with different group of teachers and each one with around 70 children's. Sister Marta Rodrigues presented the Unification Movement, about TP work and specially the WFWPU and some activities. Brother Sérgio Vieira presented the FFWPU and the formation lectures on the themes. We delivered to the teachers some leaflets about another event we are programming to another city. We had also the supportive presence of our National Leader Sérgio Neto and 7 more member's. All together we were 170 people. At the very end we appointed the school director as an ambassador of peace. She was very moved by this and wants to support for more activities in the schools of that area.

Generally all the teachers were very satisfied with this type of content for the children's and considered very important for their best growing as more matures human beings. We gave TF's Autobiography to Prof. Cristina to give them later to all of the 17 teachers.

This was a very positive event and we have much hope in the future to grow up and expand this type of teachings to other's local school.

Sérgio Neto.
