

We failed to fulfill our tribal messiah responsibilities

October 13, 2015

It's extremely disappointing to see what is going on in God's Providence. We read about all the failures in the Bible and in the history books, but now we are experiencing them right before our eyes. Sometimes I just can't believe all this is really happening.

As I understand the Principle, Jesus needed at least three disciples to be united with him in order to prevent Satan from invading. That was the individual level. His disciples served as a protective fence for Jesus on the individual level. Our spiritual children serve as a spiritual fence of protection for our families. As True Parents progressed through the eight stages then a larger and larger number of blessed families where need to provide a protective fence for True Parents family.

We failed to fulfill our tribal messiah responsibilities to gain enough spiritual children and gain a greater number of blessed families which were to serve as the spiritual fence of protection for True Parents children. Some of the True Children have been invaded by satanic forces. However, even though blessed families have failed to gain a large enough foundation, nonetheless, the true children had their own portion of responsibility. Some have been victorious and some not.

What amazes me the most is that while God has the power to transform people; it seems that Satan has the power to transform people as well... given the right conditions. The two primary conditions for Satan to invade has been sexual problems, and the loss of position. The Principle warns us against sexual problems, and it also warns us to be aware of our resentments when we lose or don't receive a higher position.

Still, I find it so incredible that satanic forces were able to transform some of True Parents children.

We have to pray for the True Children. They are True Parents children. True Parents love them so very much. True Parents gave everything to us, and focused all their time and energy and paid so much indemnity, to save us...even at the expense of sacrificing their children. We really have to pray with a heart of repentance, and a heart of love for True Parents children.
