Reviving Ocean Church

Updated: 17 hours ago

By John Sato, Feb 10, 2024

True Father has tried many times to establish the Ocean Church, but most of these efforts failed. Perhaps most people think that the Providence of Ocean Church is one of those failures in the past and that it was a waste of money. Truth be told, the concept of Ocean Church is barely known outside of the United States. True Parents invested vast amounts of funds into boats and fishing workshops around the world. However, the actual results are meager.

No matter how many times He experienced failure, True Father never stopped fishing, boat manufacturing, and other related marine businesses until the moment of His ascension while expecting and hoping for us to continue the Ocean Church and Ocean Providence.

This document is written for those who are interested in the Providence of Ocean Church, to discuss why we should try restarting Ocean Church and a recommended approach to do so in order not to repeat past mistakes.

(Photo below: True Father instructed us to establish the Ocean Church in October 1st, 1980, at Morning Garden.)

Is it even necessary to try to revive Ocean Church?

Our goal, like that of True Parents, is to establish a world of peace. The Ocean Providence is the Providence to solve the hunger problem and is a providence that is necessary for the realization of a world of peace.

True Father says the following in his autobiography:

"The oceans hold the key to solving the food crisis of the future. This is the reason I have been pioneering the oceans for the past several decades. We cannot build a world of peace without first resolving the food issue." (p.316 "As a Peace Loving Global Citizen, Ch. 7)

If we wish to succeed in Ocean Providence, Ocean Church is a necessity as its internal center. Many organizations around the world have been trying to solve the hunger problem to no avail until now. This issue must be resolved by us, who hold the ideology of True Parents at the core of our beliefs. In addition, this Providence is worth pursuing no matter how difficult and how low the chance of success is. We must establish a foundation that future generations can build upon even by seeing and learning from our failures. True Father said:

"This has to be done. For the future, someone has to do it. You are my hope. If you don't know that, you cannot understand even who you are. The one who is close to me is the one who will determine to be successful on the ocean." (God's Will and the Ocean Ch. 6 7/3/1983)

Even after many failures after 20 years of starting Ocean Providence in the United States, True Father said:

"I started Ocean Church Providence 20 years ago, but only I am left at the end. Everyone threw it out on the way and disappeared somewhere. The next 20 years will be your time. Are you all ready to go this way? If you want to do it, raise both hands and swear before God. May God bless you. Mansei." ("Development of the Oceanic Realm" 8/1/1994 Belvedere Training Center)

It is our responsibility to inherit True Parents' heart and continue the Providence.

What went wrong in the past?

Why was Ocean Church providence so unsuccessful? According to True Father's Words in books like "God's Will and the Ocean" and "Chambumo Gyeong Book 10," it seems that the reason of our failure is our inability to fully comprehend what True Father was talking about regarding Ocean Providence.

In Chambumo Gyeong, he said:

"Although I am almost 80 years old, I still make time to go fishing, even in rain or snow. All the church leaders try to run away, making excuses and doing whatever they can to prevent me from going fishing. They do that because they do not understand why I am doing it." (Chambumo Gyeong Book 10 Ch. 2 278-319, 6/23/1996)

And in God's Will and the Ocean, he said:

"So far, no matter how clear and creative the directions were, they have not been digested and accepted. The message dwindled with each step, from the leadership to the members, until it no longer made sense when it got to the members. However, the leader who moves from CARP to Ocean Church and then to state leadership can understand and respond to my direction. They will be like a special task force, ready to respond and go whenever they hear new directions." (God's Will and the Ocean Ch.4.9/5/1982)

According to the words above, the <u>Ocean Church was necessary to fully comprehend True Father's instructions</u>. To avoid repeating the mistakes of the past, let us reconsider the "role of the Ocean Church."

What should the Ocean Church be like?

When we analyze the history of Ocean Church and True Father's words, we can start to understand what kind of organization the Ocean Church is and what kind of activities it should conduct. Analysis of the Ocean Church is recorded in the following resources below:

- · Ocean Church & Ocean Training
- History of Ocean Church & Ocean Hobby Industry

According to True Father's Words, Ocean Church should not be in the form of a traditional Christian church from two millennia ago but was supposed to be something very different. The following is a summary of "What Ocean Church should be" based on the history and True Father's Words:

(1) The Purpose of Ocean Church is not Education

Many people mistakenly believe that the purpose of Ocean Church is education and training. The goal of ocean training is not for youth education or general character education. Nor is it to spend time with the youth and take a commemorative photo.

Fishing is a great form of character education, but there are probably cheaper and more effective ways for character education, such as martial arts. There must be a more specific goal beyond general youth education in Ocean Church.

(Photo below: The tradition of fishing corvina negra off the coast of Montevideo, Uruguay, has continued for more than 20 years.)

Also, evangelism is not the goal of Ocean Church although it is one of the activities. Ocean Church does not exist to create an environment for witnessing or outreach. The purpose of Ocean Church is to lead human society to a world of substantial peace by solving various issues facing humanity specifically the problem of hunger.

Ocean Church must provide training and witnessing for necessary human resources and conduct outreach to build cooperative systems and infrastructure for the clear goal of solving the world hunger problem.

The Ocean Church does not exist for the sake of sustaining and expanding itself, like some religions. The Ocean Church must expand and cooperate with others to create a foundation to solve the world hunger problem, which is a necessary part of substantial world peace.

(2) The Form of Ocean Church is not a typical church chapel but a Business Entity that Contributes to Society

To accomplish the goal of Ocean Church, we need to establish a vast business network. We cannot hope to solve the world hunger problem with donations collected in chapels.

We must at least have a large-scale food production and the means of distribution of the produced food to solve the hunger problem. For example, we must have farms, fisheries, food processing, and transportation businesses. We also must establish schools that teach skills that will enable people to become self-sufficient, as that will ultimately lift people from the vicious cycles of poverty and hunger.

We must also engage in hobby tourism to promote economic equalization. The hobby tourism can bring wealthy people to poor nations to expedite the equalization process between the rich and poor nations.

The basic form of Ocean Church is not a "building" like a chapel, but a business entity. Boats are meant to be used for business purposes, but at the same time, True Father told us to use them as a place to hold services and education for Ocean Church and even as home churches:

"Once we own this we need not worry forever about how to make a living. This is why Ocean Church was designed and this is still necessary. When that happens, the Unification Church can be worshiped right in the ocean, right in the boat. We don't need any church building and we don't have to be on the land." (The Unification Church and the Land and the Sea, 6/1/1991)

"What is unique about this boat is that it will never sink. There is no limit to our use of such a boat. This is great for Home Church." (God's Will and the Ocean Ch. 3 8/28/1982 Province Town)

The Ocean Church in Liberty Harbor Marina in New Jersey that True Father developed in the 1990s did not have a chapel but was a group of various businesses such as restaurants, boats, fish processing,

etc. (The photo below shows the Ocean Church in New Jersey in the 1990s.)

Normally, the members of the Ocean Church should be engaged in businesses and use the income and external foundations such as the boats to contribute to society, conduct education, outreach, and witness. For example, if a particular Ocean Church member is engaged in fish farming, they can make a social contribution by donating farmed fish to the local hungry population. Those engaged in the boat-building business can use the boats for local youth education.

In addition, businesses allow church members to work in society to earn their own income and support their families.

This is different from the traditional Christian church. In traditional churches, people earn money by spending most of their waking hours working at jobs not directly related to the Providence, use most of the income for their living expenses, and donate a small portion of it to the church. In this context, the personal professional life, economic life, and church life are all separated. In this traditional way, people tend to spend most of their lives at work that does not necessarily align with the providence.

At Ocean Church, everything is integrated into the same place - the personal and professional pursuit, a source of income to support a family, a method to contribute to society, and providential activities. Their vectors are all aligned. The work that we do daily is not just for generating money but is a substantial part of the providence and a path to world peace.

(3) The Ocean Church must be the Spiritual Center of Ocean Providence

The business organization we build must continue to expand its efforts to solve the hunger problem, partnering with like-minded organizations around the world. We cannot solve the problem of hunger without forming a large coalition.

During this process, the Ocean Church must be maintained as the spiritual center of all of the foundation. Organizations tend to be pure when they are poor, but embezzlement of public funds and corruption always find their way once successful. This happens to all organizations, and we are no exception. Ocean Church must constantly educate and convey the ideologies of True Parents to prevent our external foundations from being swayed by materialism.

The Ocean Church is the center of the Ocean Providence which must consist of many businesses and organizations. It can be said that the Ocean Church is a device that will preserve True Parents' heart, ideology, and purpose that must be shared throughout all business entities of Ocean Providence.

(4) Ocean Church should operate on investments and its own income, not on donations

We cannot make the mistake of thinking that Ocean Church, as it is called the "church," must run by donations like the traditional churches.

Ocean Church must operate like any other business and become financially independent. It can be operated through initial investments, but it cannot be sustainable unless it becomes financially independent.

Ocean Church should avoid operating solely on donations and aim for self-sufficiency. This also serves as training for ourselves. We must eventually be able to teach self-sufficiency to the starving population to promote the resolution to the hunger problem, so the members of the Ocean Church must first be able to become self-sufficient.

According to True Father's Words, Ocean Church must engage in businesses, social contributions, youth education, outreach, and witnessing. However, its chief activity is not witnessing or even the business, but social contribution activities with the ultimate goal of solving the hunger problem.

The businesses are necessary to generate funds as well as to build the external methods for social contribution. The education and witnessing are necessary to develop human resources who can launch and expand Ocean Providence businesses.

The stereotypical understanding that Ocean Church exists mainly for outreach and witnessing is wrong. Witnessing, education, business, and even the Unification Church itself are "methods," not the ultimate goal. Our goal is to create a peaceful world in a very practical sense through contributing to our society and the world. We must not lose sight of this ultimate goal.

It is a mistake to view the society as an enemy. We live in it, and it enables us to live. We live by eating food made by someone and wearing clothes made by someone else. Many issues exist in human society, but as we all benefit greatly from human society, we have much to be grateful for as well.

The Ocean Church is a movement to give back to society, build partnerships, and extend its benefits to the poor and hungry.

(6) The Ocean Church's Outreach should center around Social Contribution

In order to carry out major social contribution activities, we have to be able to mobilize the country and its politicians. However, Ocean Church should not conduct its outreach activities through mobilizing large meetings and conferences.

The outreach activities of Ocean Church should center around social contribution activities.

The Pacu release ceremony at Puerto Leda in Paraguay is a great example of such an outreach activity. Every year, our church members in Puerto Leda release tens of thousands of young fish called Pacu into Paraguay River to help repopulate the river from overfishing. Such social contribution activities are a very effective way to reach scientists, environmentalists, and even politicians.

(Photo below: The author participated in the Pacu release ceremony at Puerto Leda, Paraguay in 2018 when 100,000 young pacus were released in Paraguay River.)

By focusing on such social contribution activities, we can build cooperative networks with people and organizations that are already involved in the field altruistically. We have to create a large coalition with other like-minded organizations to build a substantial peace in the world.

(7) Clarification of the Purpose of Ocean Training and Fishing

We saw many events happen in the past such as fishing tournaments, Ocean Challenges, fishing conditions, fishing workshops in Yeosu, and others. We spent tens of millions of dollars on such activities. What were they for?

The purpose of fishing tournaments was to spread a culture of fishing around the world. The Ocean Challenge that started in Gloucester, Massachusetts, in 1981 was to establish a tuna fishing business. In the Pantanal fishing workshops for national messiahs in the late 1990s, each participant had to catch 160 fish in Paraguay River. The "Ocean Leaders Training Workshops" in Yeosu trained 7,300 Japanese women.

In hindsight, these workshops ended up using large amounts of funds and were not sustainable. In most people's eyes, these workshops ended without any clear substantial results. If we were to

continue fishing workshops at Ocean Church, we must clarify the desired result (purpose) and ensure its sustainability. The goal must not be solely for Jeong Song or character education.

The form of Ocean Church is a group of businesses. The reason a typical business entity runs a "workshop" is to train the participants in the method for carrying out a purpose and a plan, or to develop a strategy for a specific goal. The training or education itself is not the goal.

The purpose of workshops should vary depending on the situation but it should mainly be to train people to build businesses in Ocean Providence.

For example, True Father told us to do fishing tourism in Pantanal. Hence one of the goals of Pantanal fishing should be to train people to start a fishing tourism business in Pantanal.

If we are going to renew and revitalize Ocean Church, the purpose of holding fishing workshops or tournaments may be to communicate True Parents' visions of Ocean Providence and to recruit Ocean Church members. During the fishing workshop, we should persuade participants to become members of Ocean Church.

True Father also invested an immense amount of time in fishing workshops, trying to convince us:

"Many Americans like that kind of seafood and I knew that, so I pioneered and developed every aspect by myself. Then, I had to convince the members. I watched many of them escape from Ocean Church during these past five years, but I kept going on." (God's Will and the Ocean Ch. 11 August 1985)

Practical Steps for Building Ocean Church

Once we have a clear idea of "what Ocean Church should be," we need to think about how it can be built. There are various Ocean Church activities such as business, education, social contribution, witnessing, and outreach. These need to be well-balanced to ensure sustainability and growth.

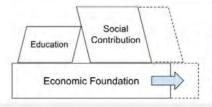

The following is a summary of my recommendations on how to accumulate our activities toward the goal.

(1) First, build a sustainable economic foundation

If we mistake the purpose of Ocean Church as education or witnessing, we will end up focusing only on education and witnessing, exhausting human resources and funds. This will limit us from developing the necessary infrastructure to solve world hunger.

Education is always necessary, but a sustainable economic base is necessary first. True Father sent boats all over the world in hopes of expanding Ocean Church globally, but there were almost no cases where it ultimately led to success. Most of these boats were either sold or abandoned. The major reason for these failures was the lack of economic base to operate and manage the boats.

We must of course provide providential education by running fishing workshops, but if there is no economic continuity, it will all end in vain. We cannot ensure continuity of education, outreach, and social contribution unless they are proportionately run with the size of the existing economic foundation.

Based on the economic foundation, we should size our education and social contribution activities.

We must maintain some level of profit to reinvest and grow the business foundation.

Even if we operated our businesses with donations or initial investment in the very beginning, we have to aim for a self-sustaining economic foundation. There would be no point in Ocean Church training otherwise and we will repeat the failures of the past.

So what kind of business should we run? It is of course preferable to engage in businesses that are directly related to the Ocean Providence such as food production, food distribution/transportation, education, hobby tourism, and others, but it can also be any business that is beneficial to society. Any of these will become a great foundation for Ocean Church.

In order to increase the number of people who support the plans of the Ocean Church, it is important to create an environment such as fishing workshops.

Ocean Providence requires a network of many people to be successful. The goal of solving world hunger cannot be achieved by 100, 1000, or even 10,000 people. True Father ordered the establishment of 535 Ocean Churches in the United States. Since Ocean Providence aims to solve hunger for hundreds of millions of people, it requires many people.

The fishing workshops and tournaments are necessary as a place to teach the vision of Ocean Providence to spread the ideas of Ocean Providence and expand the global network. To start, we must first persuade the youth to join Ocean Providence, just as True Father tried to do.

(Photo below: True Father taught fishing to UTS students in Barrytown, NY, in the 1970s.)

(3) Building a Cooperative Network through Social Contribution Activities

Social contribution activities serve as a way to build local relations and cooperation and serve as a basis for making even greater social contributions. We will need the cooperation of governments and existing NGO organizations if we are to make significant contributions to the world.

Outreach activities and social contribution activities cost money. We like to be praised by others and take pictures of our accomplishments but investing too much into outreach and social contribution can hinder business expansion and may lead to missed opportunities for even greater social contribution. We must remember that our ultimate purpose is not outreach or witnessing. Outreach and witnessing are necessary components to realize the world of peace substantially. Don't let the method become the purpose.

What kind of social contribution activities should we engage in?

It will depend on the local situation. In the United States, True Father instructed Ocean Church members to engage in cleaning the port cities, helping law enforcement with fighting drugs, and giving jobs to youths. We can start with small-scale social contribution activities, win the trust of the local government and society, and eventually aim to establish a network that works at national and global levels to solve the food problem.

(4) Expansion of Business

A vast network of businesses is required to solve the global hunger problem. To this end, True Father began the Ocean Providence in the United States.

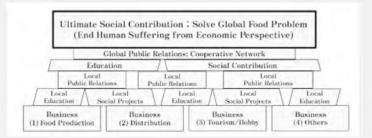

"I look at the vast ocean resources as God's blessing waiting for the Unification Church. I have promised to God, "Give me twenty years' time and we will conquer the sea, taking dominion over it and returning the glory to You." That is how I think every time I go out. Later, we will establish a great foundation, and even the Ford or Rockefeller Foundations will look like peanuts in comparison." (God's Will and the Ocean Ch. 14, 6/5/1977)

Our businesses should be diversified. We also must help each other. Each business is important, and it will be meaningless if just one of the businesses is successful. For example, even if we succeed in food production, if we do not have a distribution business to deliver that food to the hungry population at a low cost, we will not have achieved the purpose of Ocean Providence.

Various businesses must unite under a single purpose of world peace and gradually form a large global foundation.

Ocean Providence businesses do not necessarily have to be a centralized organization. Rather, a widely cooperative system of decentralized organizations that are united under the same goal would be more legally and economically protected and more sustainable. In addition, a decentralized system is more fluid, less exclusive, and will have more points of contact with society, making it easier to interact with other religious groups and NGOs.

No matter how we think about it, the problem of world hunger is not one that just the FFWPU can solve alone. We must build a wide-ranging business coalition globally.

In summary, we must develop the various core businesses to become our economic foundation as well as the methods to solve the starving people. Based on this foundation, we can build up education and social contribution projects gradually to create a global cooperative coalition to finally solve the starvation problem altogether.

(5) Managing the Plan and Strategic Investments

The word "Providence" is usually defined as "God's guidance or plan." Hence, "Ocean Providence" is God's Plan related to the ocean. Plans usually have clear actionable steps to reach the goal. Some of these steps depend on each other and are sequential. Others are parallel steps. All of these steps are important to reach the final goal. For example, even if 99 percent of a boat is completed, if a single part such as a propeller or steering wheel is missing, the entire boat is useless and can never achieve its intended purpose.

Without understanding the steps of Ocean Providence, it is difficult to make any appropriate decisions. Ocean Church members must understand the steps and guide the rest of us to complete the plan of Ocean Providence.

Businesses should be developed strategically centered around the plan of Ocean Providence. For example, if the food production business is on track but the distribution business has not started, investments should be made into the distribution business. Such management of the plan should also be the role of Ocean Church.

Worship service at the Ocean Church should be centered on the Plan, i.e., the Providence. There should be actions based on the plan and it should be discussed within the ocean church service. The internal and spiritual contents are always necessary for us to implement the actions, but they must always connect to substantial actions within the plan of Ocean Providence.

(6) Long-term Plan to Nurture Experts

If we were to become successful in Ocean Providence, we must focus on building the businesses now, but also we must nurture the future experts.

We need lawyers, scientists, architects, engineers, etc. to support Ocean Providence. Such experts do not develop quickly. Normally, they would need 5 years of education and 5 years of experience.

To this end, Ocean Church must encourage youths to study and gain experience in society to become effective professionals. Ideally, we should have our own technical schools so that we can develop our professionals in our own schools and businesses.

This way, experts who are recognized in wider society, not just within a religious realm, will be able to form an even larger coalition to solve various social issues of the world. Education of the experts will become the most important issue in the long term.

For World Peace, We Must Try and Try Again No Matter How Many Times We Fail

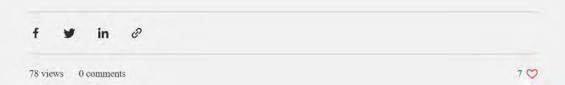

Above are the steps I recommend we take to revive and try again to expand Ocean Church.

We are still inadequate in many aspects in trying to achieve a world of peace. We lack people. That is the reality. The chances of failure are high.

What we must remember is that even if we failed in the past, we still won't have any reason to give up on Ocean Church. Human history has been a series of repeated failures in search of a peaceful world. We are no exception and may continue to fail. Failure is not a reason to give up. We might be criticized by future generations if we fail, but they will at least learn from our mistakes.

I sincerely hope that those who read this document will agree with the great plan of Ocean Church founded by True Parents and will walk together on the same path, sharing this single ideal of a peaceful world.

The Most Precious and Important Work in True Father's Life = "To Feed People"

Autobiography Chapter 1 "Joy of Giving Food to Others"

"My mother would always prepare food for the passersby, who came from all parts of Korea. If a beggar came to our home asking for food and my mother didn't react quickly enough, my grandfather would pick up his meal and take it to the beggar.

Perhaps because I was born into such a family, I too have spent much of my life feeding people. To me, giving people food is the most precious work."

True Father has said that "the work of giving people food" is the most precious work. This "work" in fact is the work to revolve the hunger problem through Ocean Providence. In this Part 2, we will discuss this plan that is the Ocean Providence.

Review

We cannot make appropriate decisions and actions without first understanding True Parents' purpose, plan, and the current situation.

The **purpose** of Ocean Providence becomes crystal clear once we come to know the motivation and heart of True Parents and through understanding the reality of the Hunger problem.

The **plan** that is Ocean Providence can be understood by analyzing True Father's words and actions (what He invested in).

The **current situation** can be understood by knowing and analyzing the history, how far the plan has come, and where it has failed.

Only then, it becomes clear for the first time what I must do now.

Intro to: Part 2 Sec. 1 "Ocean Church and Ocean Training"

In the Part 1 "Intro to Ocean Providence,"

We discussed True Parents' and Ocean Providence's Purpose, True Parents' Heart, and the Issues of the world such as the Hunger problem.

In the last presentation, we focused on the **problem of Hunger** due to the fact that without knowing the issues of humanity and the suffering of our brothers and sisters, we cannot know the heart of our Parents or truly understand the plan to resolve these issues.

In this Part 2 "Ocean Church and Substantive Plan,"

We will discuss in detail about the 20-Year Plan that can be called the foundation of North American Ocean Providence centered on True Parents.

Preparation/ Short-term Plan

Intro to Part 2 "Ocean Church and Substantive Plan"

The North American Ocean Providence and the global Ocean Providence began in North America, and it was a **PLAN** to bring solution to the problem of Hunger and was to be largely responsible in bringing a substantive peaceful world where no one starves. The **20** years between 1974-1994 was the period to lay the **preparatory** foundation in North America, an advanced nation Blessed by God, in order to expand that foundation to the rest of the world. What was True Father thinking and planning during this 20-year period? We will discuss this point.

Sec.

What is Ocean Church? Why Should we Train on the Ocean? What were True Father's **objectives and expectations** for Ocean Church, which He called the "only hope"? What is its **theoretical form and role**? What was the form of **training** He envisioned through Ocean Training?

Sec. 2

History of Ocean Church and the Creation of a Model of Ocean Hobby Industry Base The **history** of Ocean Church and its current status, as well as **True Father's lament** over the results, and the single successful **substantive model of Ocean Church**, and the **12 pillars** of Ocean **Hobby Industry Base**

Sec.

Substantive Plan to Solve World Hunger (1)

Ocean Providence is a **Plan to practically solve the Hunger problem of the world**, and True Father had been preparing for this for 20 years in North America, a developed country that had been Blessed by God. We will discuss the 2 substantive methods True Father spoke about at the 20 Year anniversary of North American Ocean Providence in 1994: (1) resource distribution at low cost and (2) supplying technology for self-sufficiency.

Sec. 4

Substantive Plan to Solve World Hunger (2) What is Ocean Church? Why train on the Ocean?

In this presentation, we will discuss the following 3 points:

- 1. What is the background for Ocean Church, and what was True Father's expectation?
- Within the Ocean Providence, what was the role of Ocean Church?
 - 3. What is true aim of Ocean Training?

In this presentation, we will refer to excerpts from following True Father's Words: (1) As a Peace-Loving Global Citizen (2) Pacific Rim Providence (3) Chambumogyeong Book 10 (4) God's Will and the Ocean (5) US Ocean Providence 20th Anniversary Speech Aug. 1, 1994 (6) "Unification Church and Land and Sea" June 1, 1991

The most important thing in order to understand the 20 years of North American Ocean Providence is the Ocean Church.

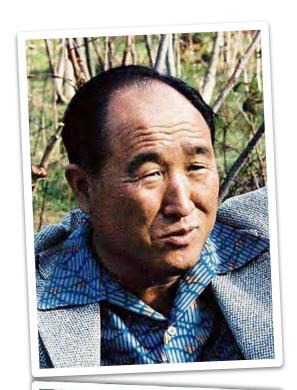

True Father had said that the Ocean Church has an ingrained "purpose that spans thousands of years." What do you think was the background and True Father's expectations for Ocean Church which He declared in 1980?

The Background and True Father's Expectation to Ocean Church

10/1/1980 Historical moment of the establishment of Ocean Church (Gloucester, Morning Garden)

Ocean Church is a Great Movement

God's Will and the Ocean Chapter 3, 8/28/1982 Provincetown

"In ten years, you will see why I am doing this program, why I am putting so much effort into it now. The Ocean Church movement then, that's what we are talking about today. Is it a good movement? You are shouting that it is a "great movement," but why is it a great movement? What we are doing is great, that's true."

Why do you think Ocean Church is great?

What in the world was Ocean Church?

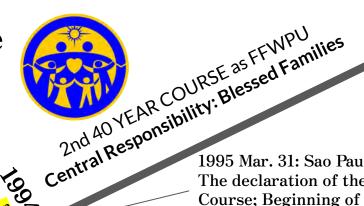

Ocean Church is a very unique movement that sets the boat as a church launched by True Father on October 1st, 1980, mobilizing a large amount of funds and human resources in the United States. However, later on it became largely unheard of. Especially in foreign countries like Japan, not many people are aware of its existence. Then...

Was Ocean Church a Providence meant specific to North America?

Is it a failed Providence?

Let us first take a look at the background behind the establishment of the Ocean Church.

First let's understand the historical context!

199

1995 Mar. 31: Sao Paulo Declaration The declaration of the 2nd 40-Year Course; Beginning of North/South Americas Unification movement

1994 Aug. 1: 20th Anniversary EXPO of Ocean Providence in North America

1994 May 1: FFWPU established

1st 40 YEAR COURSE as HSA-UWC Central Responsibility: True Parents 1981 summer: Ocean Challenge begins (**Ocean Training**)

1980 Oct. 1: Ocean Church established in Gloucester MA

1980 July 10: Development of ONE HOPE boat

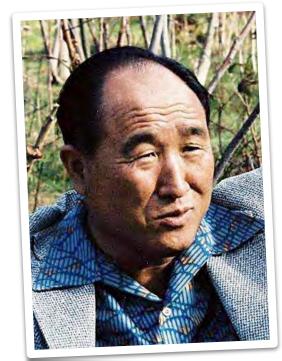

1974 Aug.1: Start of North American Ocean Providence

1971: True Parents began North American Providence

1954.5.1: **HSA-UWC** (Holy Spirit Association of Unification of World Christianity) established

We will talk about this today!

About the Prayer for the Start of 20-Year Course for North American Ocean Providence

God's Will and the Ocean Chapter 14, June 5, 1977

"I look at the vast ocean resources as God's blessing waiting for the Unification Church. I have promised to God, "Give me twenty years' time and we will conquer the sea, taking dominion over it and returning the glory to You." That is how I think every time I go out. Later, we will establish a great foundation, and even the Ford or Rockefeller Foundations will look like peanuts in comparison. That is the way we must realistically feel."

On August 1, 1974, True Father promised to God that He will create an oceanic foundation in the next 20 years, and began the North American Ocean Providence.

The 20-Year Plan was the Preparation to Solve World Hunger

Pacific Rim Providence 217-314, 1991.6.12

"Every year, 20 million people die of starvation. That is 60,000 people a day. Is the President of the United States going to take responsibility for that? Will Gorbachev of the Soviet Union take responsibility? Who will take responsibility for this? Who in the world is going to do that? The True Parents and the siblings of the True Parents have to take responsibility for it. For this reason, all our work with the sea is something I have been planning and preparing for, over the last twenty years."

He prepared for 20 years in North America to resolve the global Hunger problem.

Ocean Church's Background

- 1. 1974-1994: True Parents carried out the **20-year plan of Ocean Providence** in North America.
- 2. 1980: After boat manufacturing began, the Ocean Church was established.
- 3. Ocean Training using boats began in full swing in 1981.
- 4. The main purpose of the 20-Year North American Ocean Providence was to prepare for the resolution of the global Hunger problem.

The Ocean Church was established as an important part of the 20-Year North American Ocean Providence that aims to solve the world hunger.

With this background in mind, we will now take a look at what kind of expectations True Father had for the Ocean Church.

Ocean Church was an Important part of North American Providence

God's Will and the Ocean Chapter 4, 9/5/1982 East Garden

"I have a vision for America and Ocean Church plays an integral and important part in that."

Ocean Church was an important part of North American Providence.

In the Future, Ocean Church will be the Only Hope for Unification Movement

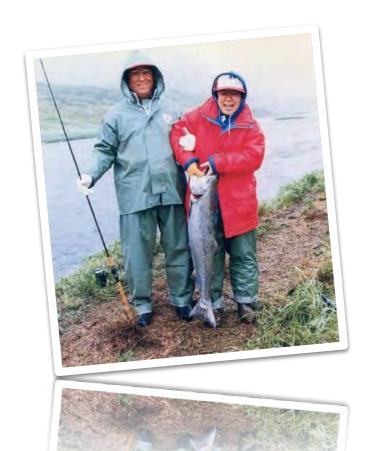

God's Will and the Ocean Chapter 6 7/3/1983 Gloucester

"Just put my ideas into action and you will find the success I am talking about. The only hope that Unification Church has for the future lies in Ocean Church. Don't you see how serious your position is?"

True Father had high expectations for Ocean Church to the degree of calling it the "only hope that Unification Church has for the future."

From the Era of Land-Based Church to Ocean Church

God's Will and the Ocean Chapter 14 8/26/1983

"I feel in the future, the Ocean Church foundation can be greater than the land church. So far we've been living in the land church era, but from now on we'll be living in the Ocean Church era."

He said that it is no longer an era of conventional land-based church, but is the era of new type of church, the Ocean Church.

Ocean Church Foundation will Grow Larger than the Land-Based Church

God's Will and the Ocean Chapter 2 10/1/1980 Morning Garden

"If you new Ocean Church leaders do well, you will develop faster than the inland churches, including the state centers on the coastal lines."

God's Will and the Ocean Chapter 8 2/8/1984

"I believe that Ocean Church will succeed more than the IOWC and state centers. Why? Because the work you do with your boats will quickly gain recognition by the city."

True Father expected the Ocean Church foundation to be larger than the regular church.

He wanted to Expand from 30 to 300, to 535 Locations

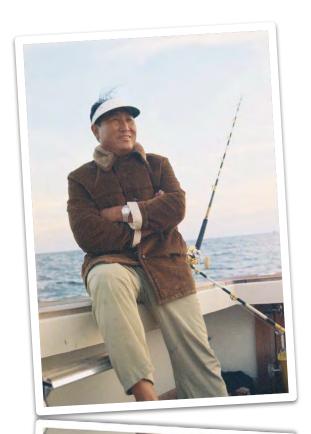

God's Will and the Ocean Chapter 2 10/1/1980 Morning Garden "If you really implement this plan, don't you think Unification Church will grow? We will have **300 churches** very soon from the original thirty centers."

Pacific Rim Providence Chapter 1 2.1.1 (147-25, 1986.8.20) "Our members do not like Ocean Church. If I tell them to get into the marine products industry they all run away. That is why my plan now is to quickly establish a thousand Japanese restaurants across America. That is my plan now. Then my next plan is to establish 535 Ocean Churches. We must now make preparations for these two plans."

It seems like True Father wanted to expand Ocean Church from 30 to 300, and then to 535 locations.

Was Ocean Church Meant Just for North America?

God's Will and the Ocean Chapter 4 9/5/1982 East Garden

"We are in an emergency all over the world, so I cannot waste one minute. When we first started to build these boats, we knew nothing about it, but we created an absolute miracle. Master Marine started from scratch. Members came from all over the world to work on those boats. Why? I wanted Ocean Church to go to the entire world. Therefore, once a member is successful here, he can go to the rest of the world."

True Father expected that if Ocean Church was successful in North America, He then would **expand it to the world**.

It was meant to start in North America, then expand globally

God's Will and the Ocean Chapter 3 8/28/1982

"We can begin an American organization, but **then cover the whole world**, sharing with fishermen everywhere."

"If we accomplish Ocean Church in America, it is no problem anywhere else in the world. However, first things first. We have to make the foundation here. Surely, we must go everywhere in the world, after all almost every country has a coastline."

The Ocean Church was meant to gain success in the US and then expanded globally.

True Father's Expectations Towards Ocean Church

- 1. The **Era of Ocean Church** will come, and it will gain larger foundation than the land-based church.
- 2. Ocean Church had a **integral importance** inside the North American Providence.
- 3. He said that the only hope for the future of our movement was Ocean Church
- 4. He wanted to establish over 500 Ocean Churches across North America.
- 5. He wanted to expand Ocean Church globally starting from North America.

Ocean Church was an integral and important part of US Providence, and an only hope, as well as a form of church that was to be expanded globally.

In this way, **Ocean Church** was something True Father had tremendous expectation in, however, we do not hear about it too much within our movement.

We will discuss the more detailed history, but do you think Ocean Church was a **temporary Providence** specific to a time period?

Was Ocean Church a Providence Specific to a Time Period?

God's Will and the Ocean Chapter 4 9/5/1982 East Garden

"Ocean Church is not a random whim. Everything that I do has a purpose which covers thousands of years. When Allen Hokanson gets in the New Hope and drives, he has a purpose, but when I take the New Hope out my purpose is much wider and greater."

True Father said that Ocean Church has a "purpose which covers thousands of years." The purpose of Ocean Church was not temporary but was something that needs to be completed even if it takes thousands of years."

What is the Purpose of Ocean Church that Covers Thousands of Years? ①

What do you think was the "purpose that covers thousands of years" that was hidden behind Ocean Church?

It is to unify the world through the ocean and establish a substantive Kingdom of Heaven on Earth.

Ocean Providence is a method of unifying the world.

(Refer to: Part 1 Sec 1 of the series)

Pacific Rim Providence Chapter 1 8/28/1983

"I am going to nurture the ocean in accordance with the original intention of the Creator, and make it the **center stage for bringing the world together.**" (128-249, 1983.8.28)

God's WIll and the Ocean Chapter 11 Aug. 1985 Berkeley

"We have to make this foundation (on the ocean) for the entire world. This is the fastest way to bring people and nations together."

What is the Purpose of Ocean Church that Covers

Thousands of Years? ②

The "Purpose that covers thousands of years" viewed from a different perspective could also mean:

Restoring the Third Blessing, dominion over all things by restoring the hobby lifestyle that God intended for us before the Fall.

"Thousands of years" refers to the Providential history, and to the goal of ending thousands of years of Fallen history to return to the original world.

Pacific Rim Providence Chapter 2

"A life of leisure! This is the kind of life that God likes. Your hobbies are connected to the creation. So many different hobbies are waiting for me. I never get exhausted. By enjoying one hobby after another, I automatically come closer to God's world. This is the best life that men can hope for."

(279-60, 1996.6.9)

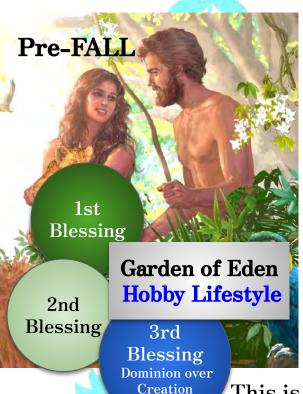

The Training at Ocean Church was a Path to Gaining Dominion over Creation

(God's Will and the Ocean Chapter 14 8/26/1983)

"As you know, only one third of the surface of the globe is land; two thirds are ocean. Therefore, without knowing the ocean we can never have dominion over the entire globe. So every one of you, every member of the Unification Church, is required to take a basic training in Ocean Church, including navigation, repairing and so forth.

In order for us to mold our God-centered character we must know how to deal with the ocean, how to become subject over it, and how to have dominion over God-given creation."

Ocean Providence Restores the Hobby Lifestyle Intended Before the Fall

Genesis 3:17

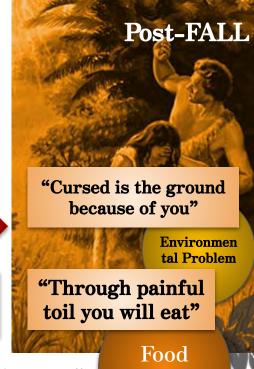

"Because you listened to your wife and ate fruit from the tree about which I commanded you, 'You must not eat from it,

Cursed is the ground because of you;

through painful toil you will eat food from it, all the days of your life.

FALL came to suffer from environmental and food issues

Ocean Restore humanity to Providence intended hobby lifestyle

s,"

Problem

This is the "Purpose that covers thousands of years," the reason True Father established the Ocean Church

Note: This doesn't mean that we can live just enjoying a hobby life

For those of us who have been taught that there will be no liberation of humankind without sacrifice, hardships, and indemnity, talking about a **hobby lifestyle** might seem foreign.

One thing to note is that this "hobby lifestyle" must connect to the productivity that is "for the world" and "for others." It means we will live with joy for others and improve productivity.

(We will discuss specifically about the relationship between hobby lifestyle and the ideology of interdependence, mutual prosperity, and universal values in the section titled: "Ocean Hobby Tourism Industry") God's Will and the Ocean Chapter 14 6/26/1983

"I had to learn it from scratch. I kept on working day after day and established the tradition. Now, I am known as an expert among the other tuna fishermen. I developed the plan, putting in seven or eight seasons faithfully, until I learned how to catch tuna. Such a thing cannot be accomplished as a hobby or by someone who just enjoys the ocean."

Background and Expectation behind Ocean Church: Summary

As we could see from True Father's words,

- (1) Ocean Church is an absolutely integral part of the plan to resolve the problem of World Hunger,
 - (2) True Father hoped to expand it to the world,
- (3) and its activities are connected to a "purpose that covers thousands of years" to return this world to the intended original world before the Fall.

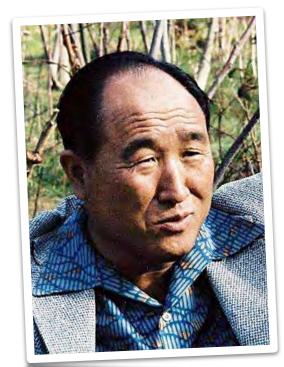

As a method to substantively restore the world to its original state, True Father called Ocean Church as "integral and important" and that the "only hope for the future of our movement is Ocean Church."

We can see that Ocean Church had great importance within the Ocean Providence.

Then what exactly was the ROLE of Ocean Church?

Within Ocean Providence, What is the role of Ocean Church?

Fishing, Witnessing, and Youth Training All Happen on the Boat

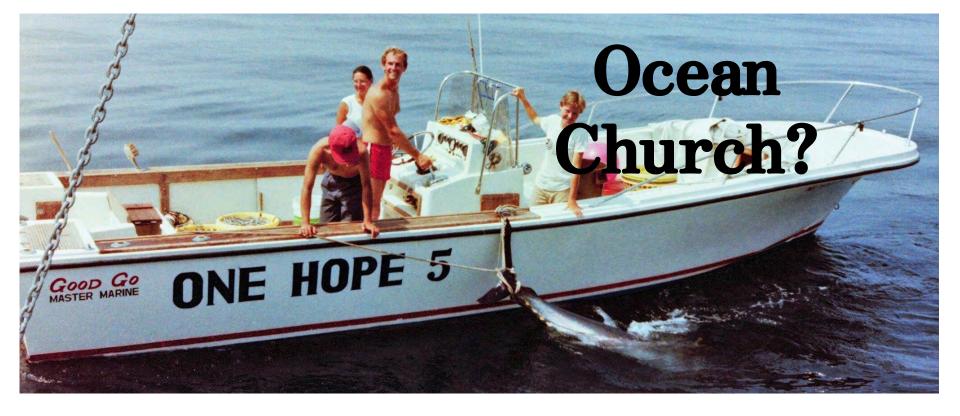

God's Will and the Ocean Chapter 8 2/8/1984

"You are taking care of a boat. Go out and catch fish. Use the boat for evangelical programs and train the youth of the city. The boat can supply you with all you need."

Ocean Church is a movement/activity centered on boats where we catch fish, conduct economic activities, witness, and train the youth all at the same time.

True Father instructed Ocean Church to conduct evangelical activities and training in the same way as ordinary churches, but what was different about it aside from boats?

Boat work will quickly be recognized by society? But Why?

God's Will and the Ocean Chapter 8 2/8/1984

"I believe that Ocean Church will **succeed** more than the IOWC and state centers. Why? Because the **work you do with your boats will quickly gain recognition by the city.** Someday you may even become the mayor of your city. The people will elect you **based on your contribution to cleaning up their city.** Some of you might even become congressmen or senators."

He is saying that we will be quickly recognized by the towns through "work with the boats" and the "contributions," but what kind of "work" was He talking about?

Work with the Boats: Revitalizing Port Town Fisheries

God's Will and the Ocean Chapter 14 1/2/1980

"America is surrounded by the sea, but has not conquered it. I initiated our fishing business to revitalize American fishing and seaports."

One of the first things Ocean Church is supposed to do is the "revitalization of fishing and seaports."

Work with the Boats: Educating youth who are losing hope

God's Will and the Ocean Chapter 8 2/8/1984

"I designed the One Hope boat. It is a strong and yet fast boat, and I know that young people will be easily attracted to it. It was designed with young people in mind. I wanted them to use the boat and do things together with you.

In the ocean cities, the young people have no hope. They don't have anything to do and just hang around in the streets. They are open to being contaminated by the drug traffic. They have no equipment to go out fishing and even if they caught fish, they wouldn't know what to do with them. They have no way to gain pride in themselves or self-respect."

Work with the Boats: Develop cities, clean them up, solve the drug problem

God's Will and the Ocean Chapter 8 2/8/1984

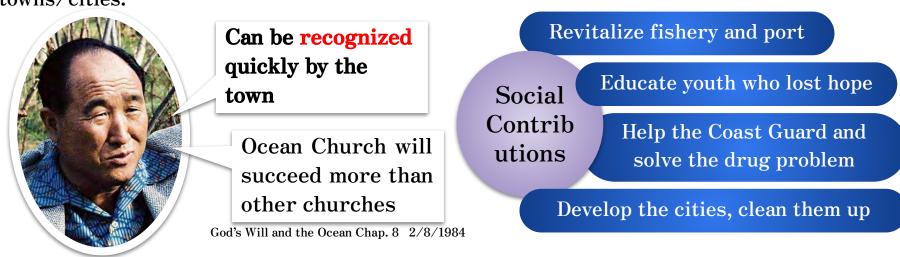

"I studied the ocean-related cities and recognized that the best way to help America is to help these cities.

So much comes through these cities and then filters into the country. If we **develop** these cities and clean them up, we will set the direction for this nation for the next century.

The Coast Guard is very important in this regard. They are trying to safeguard the country against the infiltration of drugs, but the Mafia is bringing in cocaine and other drugs by the thousands of pounds. If we are to enter into the ocean way of life, we have to **cooperate and help the Coast Guard** with its work. In that way we can help this nation **clean up its drug problem** and at the same time we can even **help the American fishing industry**."

The Work with the Boat points to Social Contributions (Living for the sake of others)

As discussed before, Ocean Church must engage in evangelical education just as the land-based church, but on top of that, it is meant for the following types of **social contributions** in coastal towns/cities:

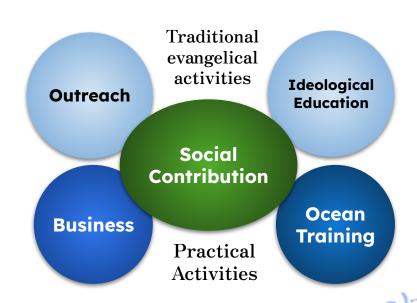

Work on the boats will contribute to society, and True Father said that "the work you do will quickly gain recognition from the town," and that "Ocean Church will succeed more than other churches."

The Main Function of Ocean Church: Live for the Sake of the Town/City

The main functions of the Ocean Church can be summarized as follows:

Unlike conventional churches, Ocean Churches create economy based on businesses.

In addition, it was True Father's vision to promote our outreach efforts through "helping American cities" by connecting the business activities and educational activities to social contributions.

Next, let's take a look at some quotes regarding the purpose of the function, "Ocean Training"

In order to train human resources for the fisheries business and ocean hobby tourism business

Cham Bumo Gyeong Book 10, 186-306, 1989/02/06 "I created something that did not exist in the US by sending out people to pioneer Ocean Church. I created Ocean Churches in 30 of the most important seacoast locations in America.

We can pursue **seafood business**, but we can also enter the **charter-boat fishing business**. This is the foundation for the **global recreational fishing business** I will create in the future. I **trained** people and **built Ocean Church** as an enterprise that gives tours to people who enjoy fishing as a hobby."

The Ocean Church is meant to be a place to train personeel for the fisheries business and the ocean hobby tourism business.

In order to build a vast economic base for the Unification Movement

Pacific Rim Providence

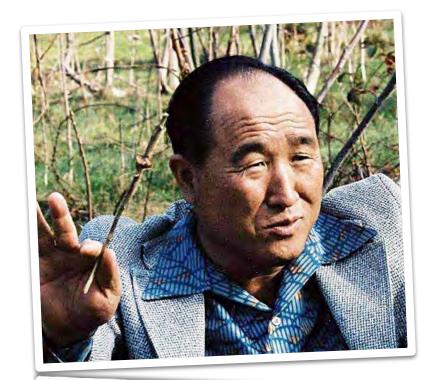

"The marine products industry in America has reached the stage where it cannot survive without us. A vast and infinite store of resources is calling us. That is why we will use it as our economic base in our global efforts." (105-328, 1979.10.28)

"It is in this area of marine industry that we will find the global economic base that will decide whether we will thrive or collapse in the future. That is how I see it." (Note: translation corrected to convey closer meaning to the original text: 128-226, 1983.6.27)

God's Will and the Ocean Chapter 14 8/1/1976

"I am leaving again today for Boston, and again I have an important mission. I will go out to sea, not for pleasure, but to lay a foundation for the future economy of the Unification Church. That's my goal. There is no way we can exceed the advances in industry and technology, except in the one virtually untapped area of the sea and sea products."

In order to build a vast economic base for the Unification Movement

God's Will and the Ocean Chapter 3 8/28/1982

"A large part of the economy in the future will come from the ocean."

Pacific Rim Providence Ch.2

"Whoever attains a leading position in the hobby industry will have a profound impact on the world. This person will be highly influential. Thus, for several decades we have been preparing all of this for humankind. (252-295, 1994.1.1)

"So, do you understand what I mean by hobby industry? I believe that **being the first to make such a worldwide organization** is the short-cut in leading to peace in all fields, including the world's **money market and human resources."** (252-210, 1993.12.30)

In order to build a vast economic base for the Unification Movement

As we've read from True Father's words, the fisheries industry and the hobby tourism industry were to be **economic foundation of the**Unification movement.

Solving Hunger is something the UN and many non-profit organizations have failed to solve so far. It definitely cannot be solved without a **huge economic foundation**.

To that end, True Father's expectation was for us to build a global economic organization through the fisheries business and hobby tourism industry.

The Main Role for Ocean Church/Training is to "Develop Human Resources for Businesses"

Ocean Church is a place to train personnel for the fisheries business and the ocean hobby tourism industry. Centered on marine resources, the fisheries business and the ocean hobby tourism industry would serve as a major economic base for the Unification movement, and on top of that, the plan was to solve the world's food problems.

Autobiography Chapter 7

How to Contribute to Society (Live for the sake of others) at the Local and Global Level

Ocean Church

Method to contribute to local city/town

Solving local social problems

Ocean Providence

. .

Method for social contribution to the nation and the world Solution to world hunger

Ocean Providence is a method of living for the sake of others. And UNITY can be achieved through "living for the sake of others."

"The more we live for the sake of others, the closer we come to the position of the central figure. Since God is like that, He establishes the person who lives in such a way as the central figure. Furthermore, only by living in such a way can ideal and complete unity be accomplished."

Theoretical Functions and Roles of Ocean Church: Summary

We've discussed so far:

- Ocean Church is a church that integrates the functions of < Social contributions, Business,
 Mission >
- 2. We can see that **ocean training** conducted at Ocean Church had a clear purpose of developing human resources for the fisheries and ocean hobby tourism businesses.

Above was the actual concept and plans that True Father designed for Ocean Church.

We will dive further into what the actual Ocean Church was like in the next episode!

Now let's discuss the true concept behind the ocean training conducted at Ocean Church.

What Kind of Human Resource Development did Ocean Training Aim For?

What kind of people was He trying to train through Ocean Church?

We discussed earlier that Ocean Church is meant to be a place to develop human resources for the fisheries and ocean hobby tourism businesses. The fact is, no matter how much anyone develops businesses, without the right ideology, resolution to World Hunger will not happen.

Then, what kind of characteristics and ideology did True Father hope to cultivate through Ocean Church?

Chambumo Gyeong Book 10 Ch.2

With the teachings of the Unification Church and the Ocean Providence, our church members are making comprehensive preparations to solve the world's food shortage. With this, the entire world can find hope. (339-110, 2000/12/07)

Ocean Church members to pioneer the New Ocean Era

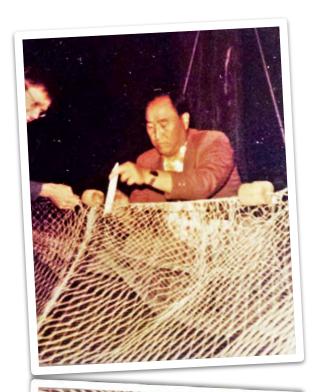

God's Will and the Ocean Chapter 9 7/2/1984 Morning Garden

"Now we are to begin our **training** and this is a **new era for the ocean**. A new age is beginning. This is a truly historical happening in which you are now participating.

...They will come here to this very port of Gloucester, to this very house in Gloucester where you were able to hear from me personally about the meaning of this training program. You, the class of 1984, just seventy-six members will be considered the "Pilgrim Fathers" of this new age."

The early members of Ocean Church were called the "Pilgrim Fathers" of the New Era.

Cultivating Leaders of the Ocean Era

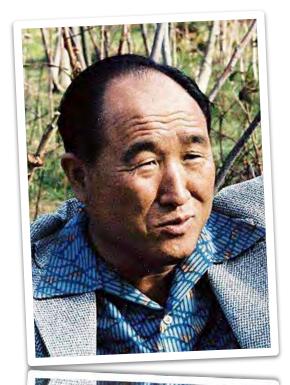

God's Will and the Ocean Chapter 3 8/28/1982 Provincetown

"The ocean has everything to do with the future. Don't you know that? You have to become interested in the ocean or otherwise you will just disappear into history. In the future, the qualification for leadership will be to know about the ocean. The basic knowledge will be how to handle a boat. To know about the ocean and to be able to go upon it will become the two basic qualifications for leadership in the future."

Father said that the qualification for a future leader is to know about the ocean.

In order to educate the leaders of the Unification Movement

God's Will and the Ocean Chapter 4 9/5/1982 East Garden

"I designed the **basic route for the core of our movement** who come through the Seminary at Barrytown. After graduation, they should first go to CARP and train on the campus. Then, automatically they should come to Ocean Church. **That is the plan for educating the leadership of our movement:** from UTS to CARP to Ocean Church. After that kind of well rounded training, the seminarian should go on to state leadership. Every state must have that kind of leader."

Ocean Church was meant to be the final stage for training the leadership of Unification movement.

A "Special Task Force" that can Understand and Respond to True Father's Instructions

God's Will and the Ocean Chapter 4 9/5/1982 East Garden

"So far, no matter how clear and creative the directions were, they have not been digested and accepted. The **message dwindled with each step**, from the leadership to the members, until it no longer made sense when it got to the members.

However, the leader who moves from CARP to Ocean Church and then to state leadership can understand and respond to my direction. They will be like a special task force, ready to respond and go whenever they hear new directions."

According His words, within the movement at that time, it seems like True Father's instructions were not being fully conveyed to the members. Through Ocean Church, He was training members who would faithfully understand and put into action His instructions.

In order to "Form a Character Centered on God"

God's Will and the Ocean Chapter 14 8/26/1983

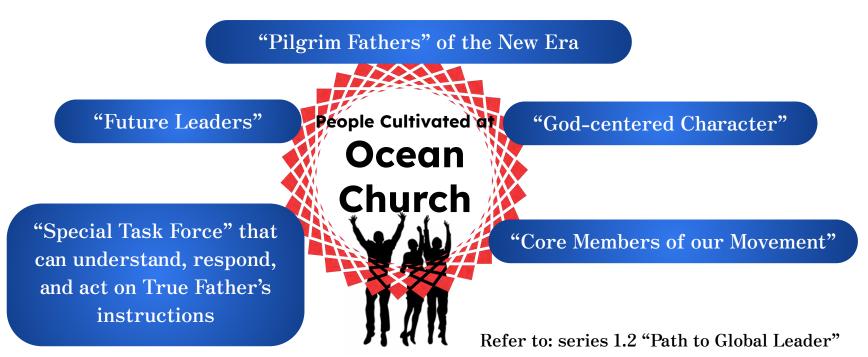

"In order for us to mold our God-centered character we must know how to deal with the ocean, how to become subject over it, and how to have dominion over God-given creation."

In order to form a personality centered on God, we must know the ocean.

(Refer to series 1.2 and 1.3)

In this webinar series 1.2, we defined the "global leader" in the Ocean Era.

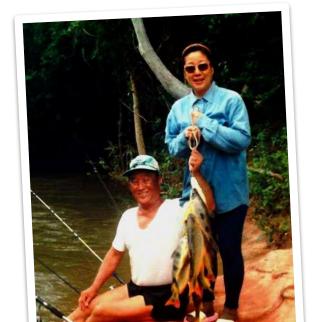

Ocean Church is the very place where these leaders of the new era are to be trained.

Ocean Training is for training the Leaders of the New Era.

What kind of activities should the leaders of the new era trained in the Ocean Church be doing?

Someone Who Helps People Starving to Death in Developing Countries

Chambumo Gyeong Book 10 Chapter 2 Sec. 5 444-191, 2004/04/04

"You Unificationists must fulfill your **responsibility to lead** them and care for these people. You should go to the developing nations and become instructors and teachers at kindergartens, elementary schools, middle schools, high schools and universities. You should **improve standards** by teaching them the most modern agricultural methods. This is how you can **save people who would otherwise starve to death.** They first need to know how to fish effectively."

Of course, the leaders cultivated at Ocean Church has to become ones who can solve the food problems in the developing countries.

We will dive more into the practical business/activities in the series 2.3

Someone Who Will Devote their Lives to the Oceanic Enterprises

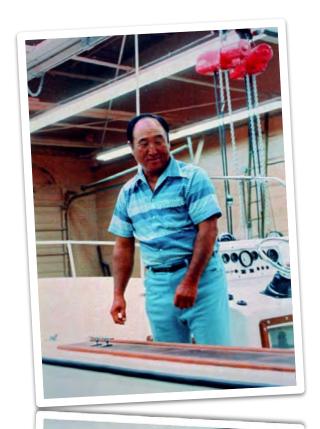

N.A. Ocean Providence 20th Anniversary Speech 8/1/1994 Belvedere

"When I came to the United States 20 years ago, I judged that current fishing methods would be out of date. In the future, the aquaculture industry will flourish instead of chasing fish. I realized that working in the sea on a boat will become part of the tourism industry, such as sport fishing, which is like a hobby. In terms of lifestyle, I realized that it would be **difficult for us to spend our entire lives** in the maritime industries **without this aspect of hobby.**"

The leaders of the Ocean Era are those who are willing to joyfully spend their lives in the fisheries business.

Someone Who Will Continue the Ocean Providence Beyond Generations

N.A. Ocean Providence 20th Anniversary Speech 8/1/1994 Belvedere

"When working in the marine industry, it is important to develop human resources who want to spend all of their lives for it and that it is a God-given occupation. The person likes the sea in youth, he likes the sea in his middle age, and when he is old, he says "Oh, I love the sea," and dies. The key challenge is how to develop such human resources and how to instruct and pass that spirit to their descendants."

As such, a person who engages in Ocean Providence are ones who even connect the Providence to their descendants.

Someone Who Expresses God's Heart by Addressing the Hunger Problem

N.A. Ocean Providence 20th Anniversary Speech 8/1/1994 Belvedere

"Don't think that going to Africa and working is a pain, but an interesting one. You can enjoy your work and actually do community service work. Imagine that 100 families live in a poverty-stricken village in Africa and that relief supplies are shipped from 100 countries, such as the United States and the United Kingdom.

The inhabitants of the land will admire us and say, "Wow, how great the Unification Church is. It's doing what the world's great powers and the United States can't do. It's really trying to unite the world." **Through your efforts, they will be truly grateful to God.** Are you all interested in this job?"

Leaders trained at Ocean Church will be able to tackle the Food Problem, witness to masses of people through their actions, and testify to God and True Parents.

What kind of "personnel" must Ocean Church cultivate?

- 1. Leaders of the Ocean Era that knows about the ocean (Refer to: "Global Leader" Series 1.2)
- 2. Someone who goes to a developing country and be able to improve their living standards as well as bring solution to the food problem.
- 3. Someone who loves the ocean as a hobby, and will continue the mission throughout his/her life joyfully.
- 4. Ones who consider this responsibility as God-given mission and will inherit this responsibility to their descendants.
- 5. Ones who testify to God through ACTION, which is to resolve the Hunger Problem.

TESTIFY THROUGH ACTION

-Leaders of the Ocean Era

Missionaries and Global Leaders with practical skills or expertise in the area of ocean providence and resolving the food problems globally even in underdeveloped countries

Agriculture Electrician Shipbuilding Fishery

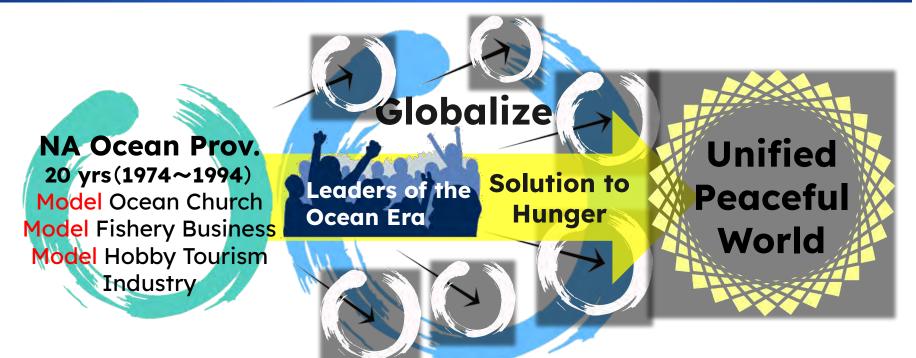

Fish Farms Mechanic Construction Tourism

Etc.

We will get into more detail on actual business activity in the series 2.3

Trained Leaders to Globalize the North American Foundation

The purpose of establishing a foundation in North America from 1974 to 1994 was for the trained group of people to globalize the foundation made in North America and solve the global Hunger Problem.

Again, practical content will be discussed in series 2.3 later on.

Section 1

What is Ocean Church? Why train on the Ocean?

Summary

Ocean Church which was started in North America as a revolutionary and unique boat-based church that integrated the functions of <social contribution, business, and mission >.

True Father wanted to globalize it.

In order to ultimately solve global Hunger Problem, the leaders of the new era trained in Ocean Church are to globalize the Ocean Church, fishery businesses, and ocean hobby tourism industry.

In the next episode, we will take a more detailed look at the actual Ocean Church and its history, what happened, etc.

Review (1)

We cannot make appropriate decisions without first understanding True Parent's **PURPOSE**, **PLAN**, and **CURRENT SITUATION**.

The **PURPOSE** becomes clear by knowing the motivation and hearts of True Parents and understanding the Hunger problem that they are trying to resolve.

The **PLAN** can be understood by analyzing True Father's words and actions (where He invested in).

CURRENT SITUATION can be understood by knowing the history and through analyzing how far the plan has come and where it has failed.

Only after that, it truly becomes clear what I MUST DO NOW.

Method to live for the town/city

Ocean **Providence**

Method to live for the nation and the world Resolution to the global food issue

Ocean Church is a path to contribute to the local town and regions' social issues,

and the Ocean Providence is a path to contribute to the national and global level social issues.

It is a path to "unite by living for the sake of others."

Review (3)

In the Part 2 Section 1 (episode 4 - What is Ocean Church, and Why Train on the Ocean?) we looked exclusively at True Father's words in figuring out the theoretical/ideal form and functions of Ocean Church.

The concept of Ocean Church is quite revolutionary, to use boats to fulfill the functions of < social contribution, business, mission >

True Father meant for it to be **globalized** as the center of Ocean Providence movement.

The leaders of the new era who were trained in the Ocean Church were to globalize Ocean Church/fishery businesses/ocean hobby tourism industry, in order to solve the Hunger problem.

Above was one part of the grand PLAN that is Ocean Providence.

Review (4)

In the last episode (Part 2 Section 2 - part 1), we looked at the **brief history of Ocean Church** and what **True Father felt** as the decades went by.

These are important points to review in knowing the "Current Situation."

In today's episode, we will cover the latter half of Part 2 Section 2

- 1. What happened with Ocea Church: HISTORY
- 2. Setbacks of Ocean Church and True rates Lamentation
- 3. What was it like? The one implementation of Coopen Church left in the 1990s NJ Ocean Church LODAY
- 4. Culmination of Ocean Church: What is the Ocean Hobby Industry Base?

We will now take a look at one specific Ocean Church branch that True Father directly supervised, which was located at Liberty Harbor Marina in Jersey City, NJ.

Implementation of Ocean Church Concept at Liberty Harbor Marina (Jersey City, NJ)

What was it like? The Ocean Church branch that existed in Jersey City.

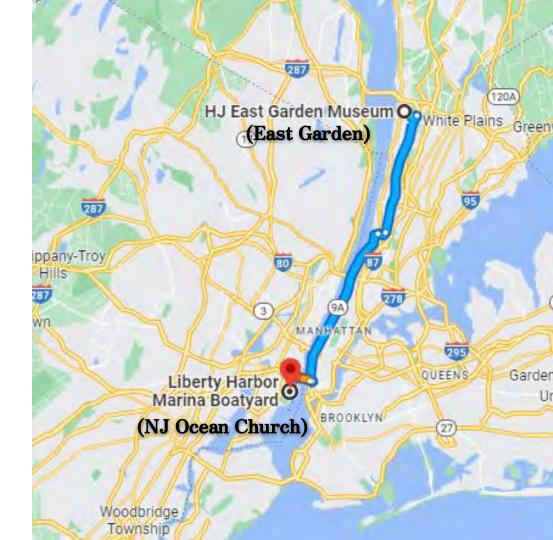

In the history of Ocean Church in the United States, one major branch was left in the end, which was located at Liberty Harbor Marina in Jersey City.

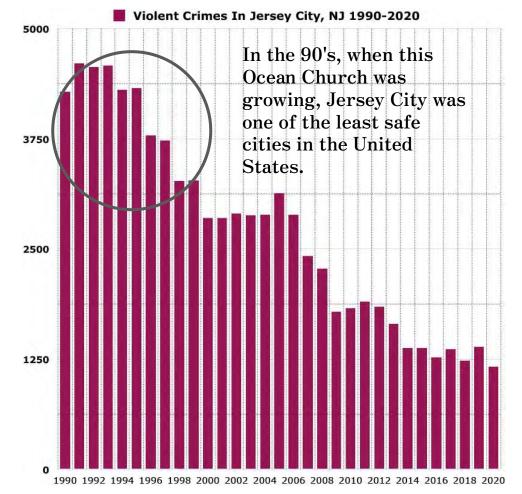

As this particular branch was located within an hour's drive from East Garden, True Father went out fishing from here out to the New York Bay.

In the last section (Part 2 Section 1), we clarified the **theoretical definition of Ocean Church** as a church that **integrates the 3 functions of <social contribution**, **business**, **mission >**. Let's see how this particular branch implemented this practically.

The Ocean Church in NJ was located about 50 km from True Parents' NY residence, East Garden.

It was located across the Hudson River from Manhattan, where Statue of Liberty can be seen.

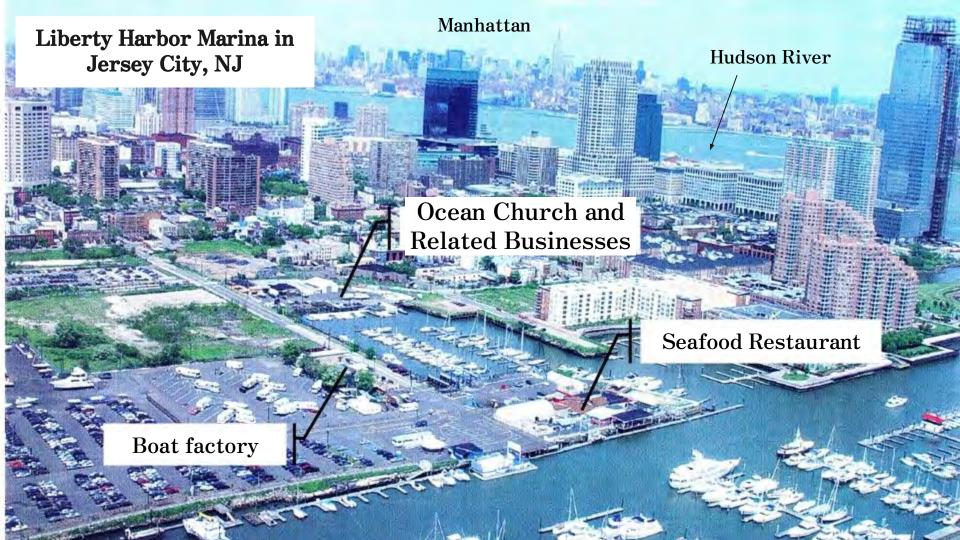

Jersey City had a very high crime rate

The chart on the left shows how many violent crimes (homicides, rapes, robberies, and violent assaults) occurred per 100,000 citizens in Jersey City.

Ex: In 1994, there were 4 or more violent crimes for every 100 citizens.

Crime has gone down now, but in the 1990s when the Ocean Church was growing, this city was known as one of the worst cities in the United States.

First of all, Businesses that center around Ocean Church

As you can see in the photos, **NJ Ocean Church** had businesses such as restaurant, tackle shop, fish sales, boat repair shop, boat tours and others centered on the Ocean Church. Also, there was a maritime vocational school for the city's youths.

It was a collection of businesses and activities in the field of fisheries, education, hobby and tourism.

In the previous episodes, we've defined Ocean Church as a church that integrates the functions of <social contribution, business, and mission >. First let us take a look at the business aspect of this particular branch.

This is True Father giving instructions for the development of the first ever cabin boat at Liberty Harbor Marina.

Technicians developing a new hull at Liberty Harbor Marina.

Ocean Church's foundation was built through the restaurant.

True Father gave instructions to run restaurant businesses to build the foundation for Ocean Providence.

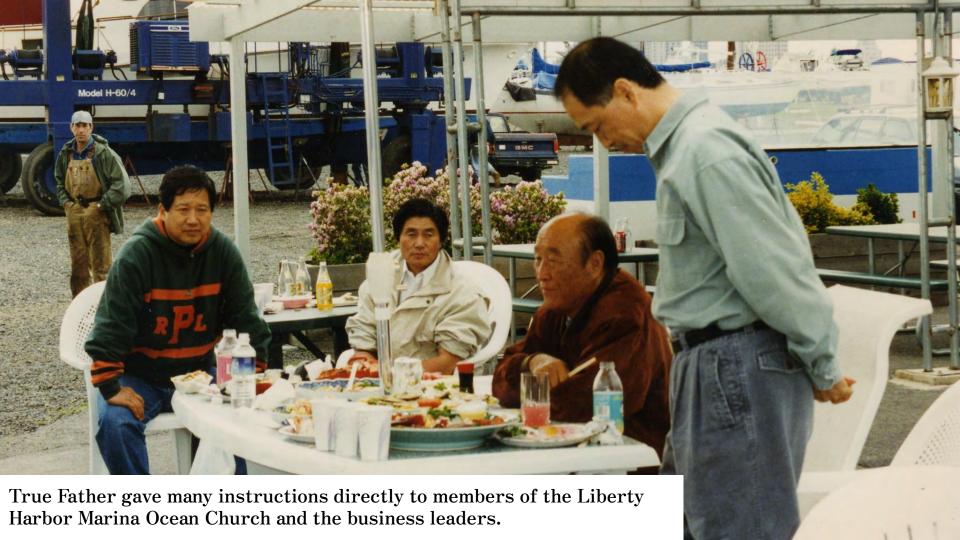

The Ocean Church had been able to connect to many people in the community through the restaurant, and it also generated funds for its activities.

Next, we will be looking at the NJ Ocean Church from a social contribution aspect, and the **restaurant** and **boats** were the best ways to connect with the Jersey City community.

God's Will and the Ocean Chapter 9 July 2, 1984 Morning Garden

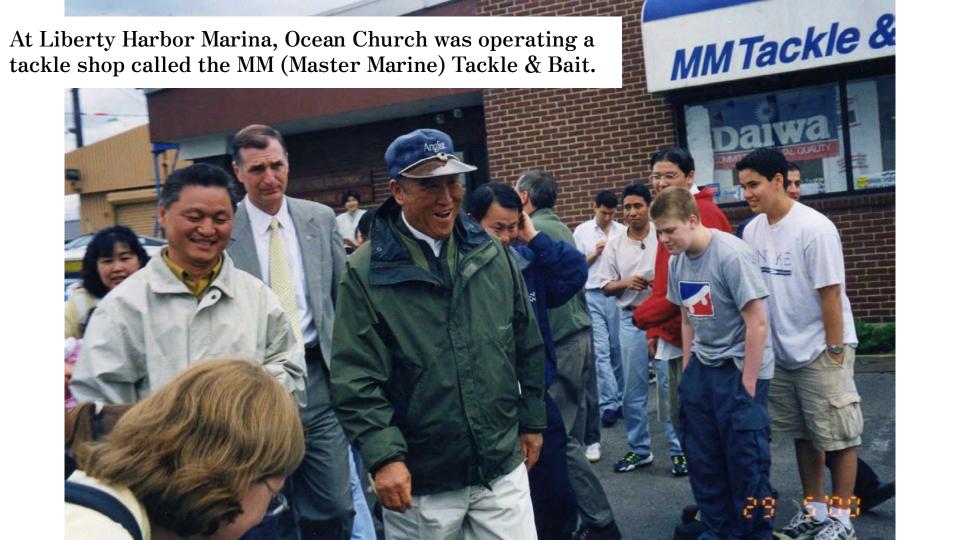

"Some members are now in the process of creating Japanese restaurants. You may think that a restaurant business is just a small thing, but it has many implications. First, it is a business where many customers come in and out.

You can reach out to these people. You can talk to them and make good relationships. You can serve them and display the real spirit of service. We are religious people, and we also have to work in this world. For this reason, the restaurant is an excellent type of business for us to be involved in."

True Father is speaking to the members of the Ocean Church in front of Liberty Harbor Marina restaurant.

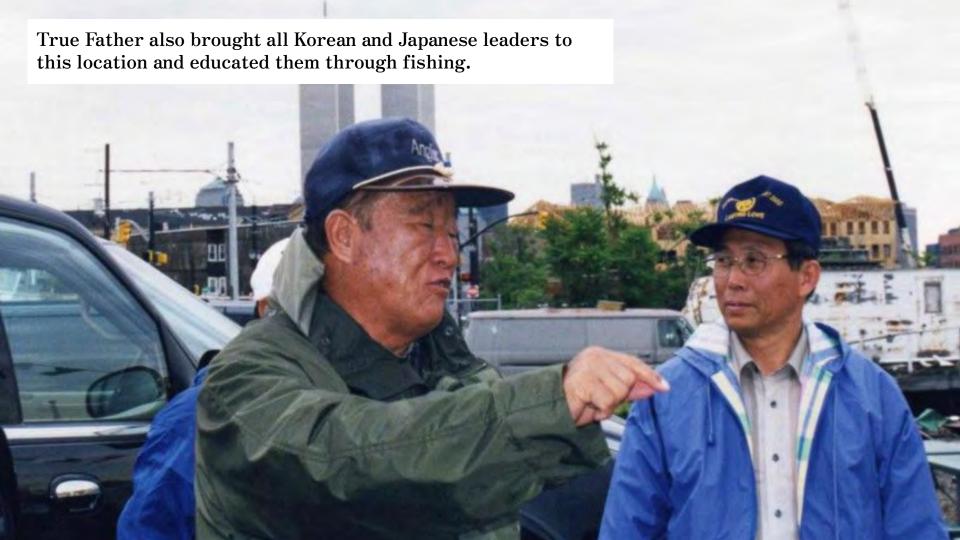

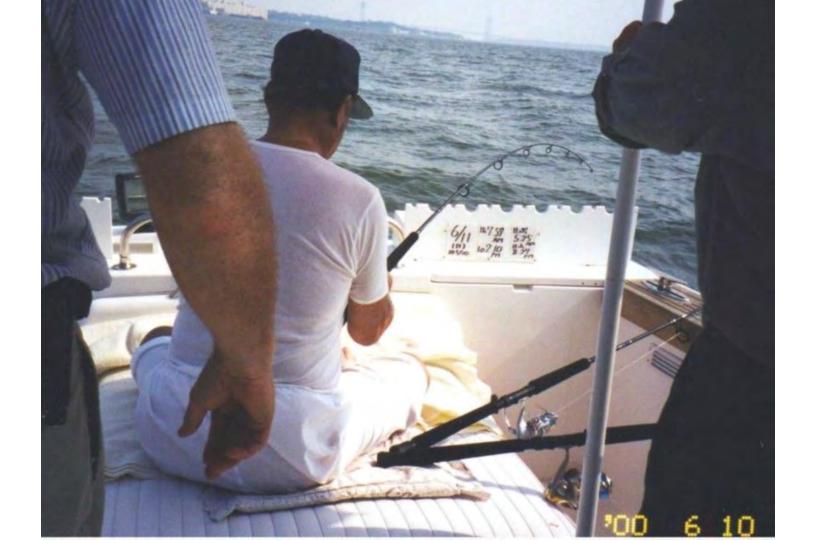

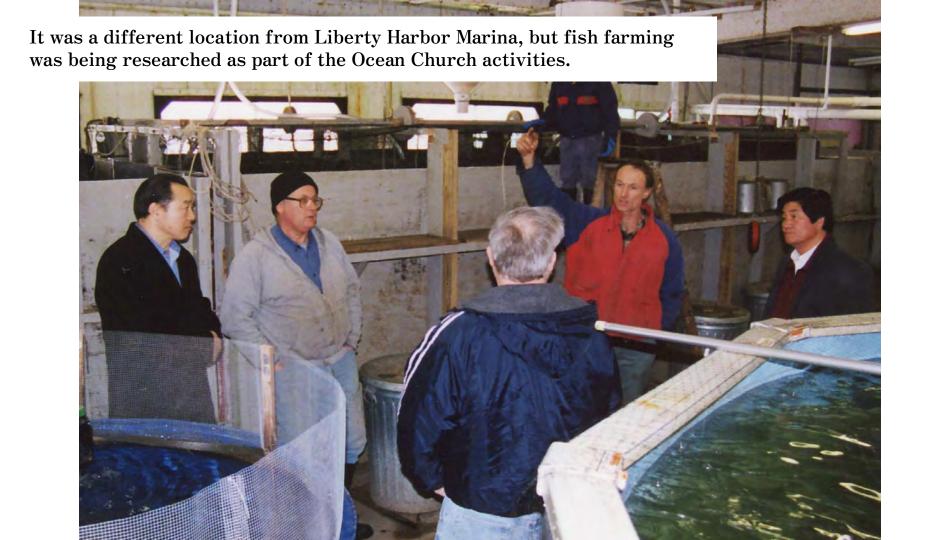

Why Conduct Business Activities?

As seen on the right, the reason for doing business is not to maintain or expand the organization, but ultimately to help all the poverty stricken people of the world.

Business is for social contribution.

The NJ Ocean Church built an economic base for its businesses, contributed to the local community, and at the same time conducted outreach activities, thereby further expanding its activities.

Let's take a look:

Chambumo Gyeong Book 10 Ch. 1

"My purpose of doing business and making money is to perform the role of bonding all the people of the world, whether rich or poor.

My financial foundation is for sharing technology with those in poverty for the liberation of all humankind. This is the equalization that I am trying to realize."

Minister's & Layman's Fishing Club: A fishing club for Christian pastors and their congregation. Families who have no access to boats get to ride on them and get away from the dirty city to enjoy a healthy activity on the water. It became a place where many pastors brought their congregation and children.

Fishing Tournaments (General public & members): Fishing tournaments were held, inviting famous local anglers. Christian Church vs church tournaments were also held, promoting fishing education for their families. Members only tournaments also were held, teaching the importance of Ocean Providence.

Ocean Festival: Cleaned up the dirty marina, invited community leaders such as the mayor and local pastors, taught children about the ocean, declared the age of ocean, and revitalized the marina/harbor. With the local community on their side, they were able to do business safely even inside Jersey City with high crime rate. The festival also served as an advertisement for the restaurant and other business.

Maritime Vocational School: A school that trains youths who can't see their future inside the city filled with drugs and crime with technical skills such as boat mechanics and tackle manufacturing.

Ocean Leadership Training (for members): Members from abroad, such as Africa and Japan, were invited to train to be leaders of the Ocean Era in order to globalize Ocean Providence.

Jersey City was a city with poverty and crime. About 400 churches existed there at the time. Pastors and educators struggled to protect young people from drugs and gangs on a daily basis. When the Ocean Church launched the Fishing Club for pastors and congregations, many well-known pastors were enthusiastic about seeking a healthy environment for children and families to get active. The leading member of the Fishing Club was Rev. John H. McReynolds (speaking inside Marine Center in the photo) from the Mount Olive Church with 1800 congregation.

In 2001, they held a fishing tournament for Jersey City churches competing with each other.

Bishop Henry D. Mays and his wife of Mr. Sinai Full Gospel Church in Jersey City hosted a holy wine ceremony for their congregation on top of a ferry boat in New York Bay.

Ocean Festival: They cleaned up the dirty marina/harbor, invited local community including the mayor, pastors and other community leaders. Children could learn about the ocean there. They declared the arrival of the Ocean Era and helped to revitalize the harbor/marina. With the community on their side, they could conduct business safely and the festival was an effective marketing for the marina and the restaurant.

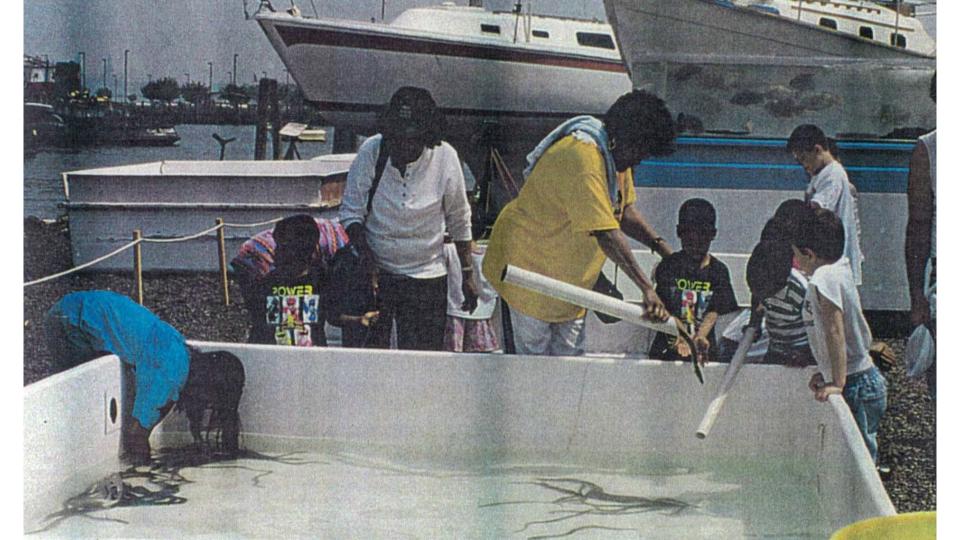

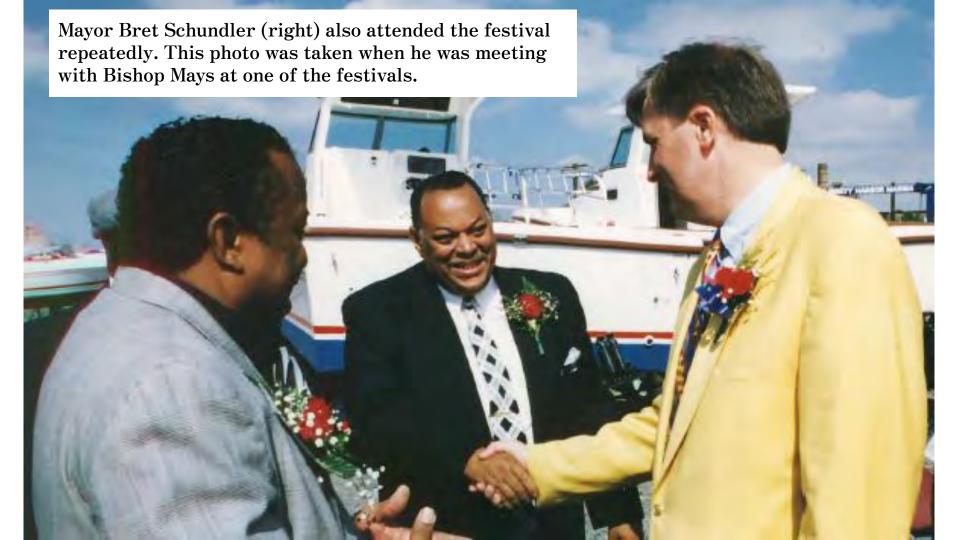

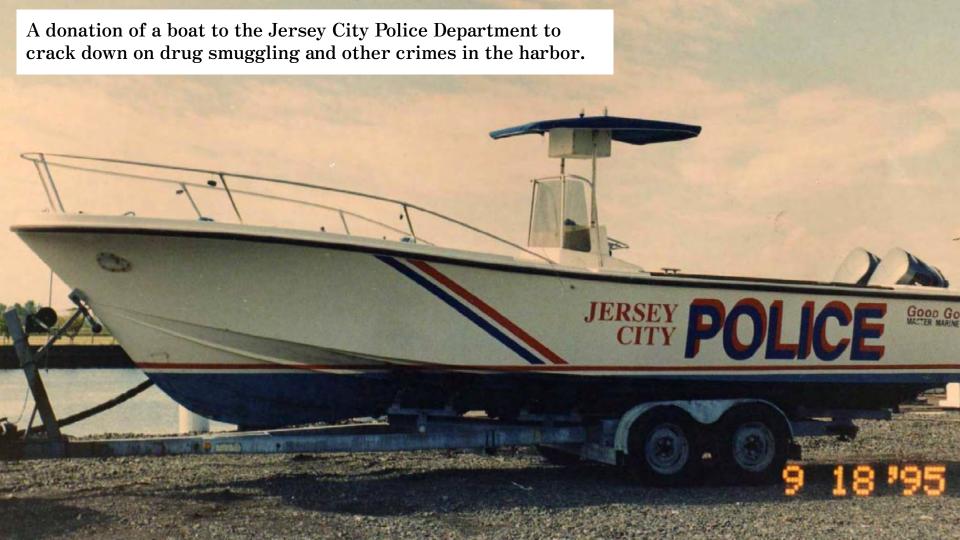

The Maritime Vocational School (MEDLATT) was officially licenced by the state of NJ as a school where youths who would otherwise have no future in the city full of drugs and crime can come and learn skills such as boat mechanics and tackle manufacturing.

True Parents also did things like inviting the women of the Korean 43 Couples from Korea to the Ocean Church's Marine Center to give a talk.

The Marine Center was also used for outreach activities.

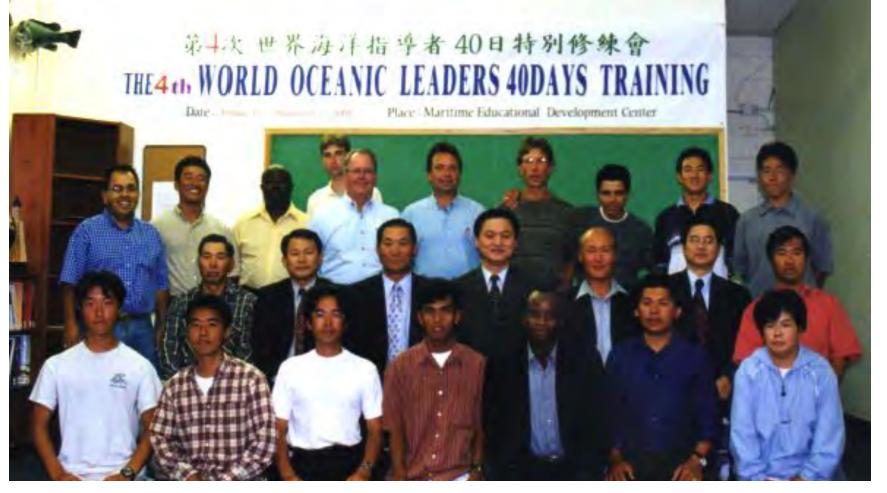

Fishing tournaments were held both in developed and developing nations around the world as the World Sportfishing Federation, in order to promote fishing as both sports and a method to secure food resources.

Fishing tournament for members was held annually to educate our own members as well.

True Father instructed to invite members from around the world to hold the Ocean Leadership Workshops here.

The workshops held in Yeosu since 2004 originated from these workshops in Jersey City.

These training was held with the hope for members from around the world to spread the Ocean Providence globally.

True Father gathered local members to the Ocean Church and urged them to get active in Ocean Providence.

These are members who were gathered at the boat showroom.

Through social recognition, business grew

By cleaning up the marina, using the boats for the community through fishing clubs and tournaments, and holding Ocean Festivals centered on the restaurant, the tackle shop and the seafood restaurant became popular locally, and helped to raise funds to develop boats.

By donating a boat for the police to combat drug smuggling and contributing to society in partnership with the local government, Ocean Church was able to connect to many local leadership like the mayor and notable pastors.

Young people were educated at the Maritime Vocational School, families and politicians were invited to the Ocean Festival where people were repeatedly told the importance of preparing for the "Ocean Era" and its connection to solving world hunger.

In this way, we can say that the NJ Ocean Church at the time was a place that consistently integrated < social contribution, business, and outreach > . Business and outreach was developing due to its social contributions.

True Father always tried to convince leaders and members using LHM

God's Will and the Ocean Ch. 11 August 1985 Berkeley

"I knew that, so I pioneered and developed every aspect by myself.
Then, I had to convince the members."

True Father invited church leadership and members to this Ocean Church in Jersey City and tried to "convince" them to understand what He was doing.

He held fishing tournaments for members.

He brought church leadership from Korea, Japan, and other nations.

He also held Ocean Leadership Workshops for the members.

From Ocean Church to the Establishment of Ocean Hobby Industry Base

Note: "Ocean Hobby Industry Base" is also known as the "Ocean Hobby **Tourism** and Industry Base." We call it the former here, just to shorten the term. Also, some call it the "model base," and this because we need a model that can be replicated across the world. In this presentation, we will just call it the "Ocean Hobby Industry Base."

From Ocean Church to Ocean Hobby Industry Base

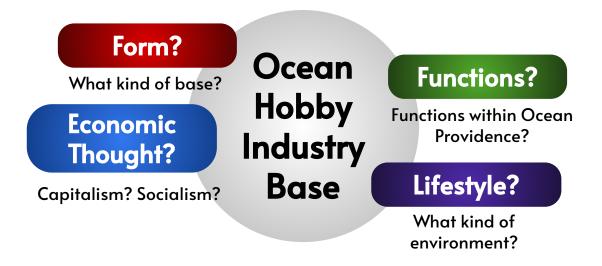

On top of a small but precious foundation of the LHM Ocean Church, at 9AM on November 27th 2003 (40th year from the building of Cheon Seung Ho boat), True Father visited the LHM Ocean Church and gave an order to build the

<12 Pillars of Ocean Hobby Industry Base>

across the world in front of the gathered church leadership.

What is the "Ocean Hobby Industry Base"?

The form that the Ocean Church should aim for was an Ocean Hobby Industry Base, but first of all, what is this Ocean Hobby Industry Base?

Let's look at these 4 points to explain the concept of Ocean Hobby Industry Base.

FORM of Ocean Hobby Industry Base: 12 Pillars

Marine School Fishing Tournament Tackle/Fishing Gear Manufacturing/ Sales

Boat
Manufacturing
/Sales

Fish Farming & Fry Hatching

Fish
Distribution
Industry

Seafood Restaurant

Shipping/ Tourism industry/ Sports Marine Resource Development

Ocean Lifestyle
Culture
Information
Industry

Ocean
Providence
Fund/Bank

Conceptual Drawing of Ocean Hobby Industry Base

It is a place where the 12 pillars of Ocean Hobby Industry gather in once place. Includes boat/fishing related businesses, marine tourism industry, farming industry, marine university, 5-family condominiums, and others. It is a center of oceanic lifestyle and culture that True Parents themselves pioneered.

The Ocean Hobby Industry Bases that will be established around the world will be connected via the international super highways and marine transportation networks, distributing the world's food and resources with altruistic ideology regardless of race, religion, or nationality, in order to solve the problem of hunger permanently.

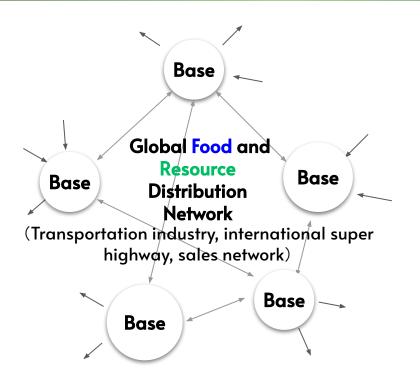

With Ocean Church as the center, **12 pillars** of businesses and activities will develop and become the **"Ocean Hobby Industry Base."**

However, what role does this "BASE" play in the overall plan of the Ocean Providence?

Since the ultimate and specific goal of the Ocean Providence is to solve the hunger problem,

the Ocean Hobby Industry Base should of course be part of the solution to this problem.

Function of Ocean Hobby Industry Base: HUB for Distribution

A PERSISTENT solution to World Hunger System of economic equalization

(This will be further discussed in Part 2 Sections 3 & 4)

As was said in the previous presentations, the reason the hunger problem persists lies not in the food production, but in **food distribution**.

Enough food exist, but they are not being distributed.

True Father was making an investment plan step by step in order to distribute the world's surplus food and resources.

This part will be discussed more in detail in the next episode, but True Father's plan is to build a **global distribution network** via the transportation industry, super highways, and sales networks, and to connect the numerous **Ocean Hobby Industry Bases** established around the world, thereby bringing a **PERMANENT solution to the world hunger issue.**

Basic idea is for the **bases positioned in the developed nations** to collect the surplus food, and then the **bases in the developing nations** to distribute these surplus foods. In other words, Ocean Hobby Industry Bases are part of the practical method to "live for the sake of the world."

Giving Food is Giving Love

True Father's Autobiography starts with the chapter named, "Food is Love" and He writes: "To me, giving people food is the most precious work."

Ocean Hobby Industry Bases serve as a place to distribute food across the world.

Feeding people is an act of love, so we can say that the Ocean Hobby Industry Base is a substantial method in which True Parents planned to deliver their love to all humanity.

The Ocean Hobby Industry Base consists of 12 Pillars.

When expanded globally, each base becomes a **hub** of a global food and resource distribution **network**.

It will lead to becoming a **persistent** solution to the world's hunger problem.

However, no matter how wonderful the external system is, if the **management philosophy** is not the right one, it will be abused by selfishness and corruption.

Then, under what principles should this "BASE" be operated?

OHIB's Economic System: ID/MP/USV

(Exp. Of Divine Principle Part 2 Ch. 4 Sec.7)

Democracies of two types arose with the purpose of dismantling absolute monarchy and transferring sovereignty to the people. Likewise, movements to further the ideals of interdependence, mutual prosperity and universally shared values arose on God's side, while communism was born on Satan's side, in order to demolish economic systems which concentrated a society's wealth in the hands of a privileged few. Each of these movements has sought to establish a system which would distribute wealth more equally among people. The aspirations to socialism on both sides have arisen in their providential striving to realize a society based on a truly democratic economic system.

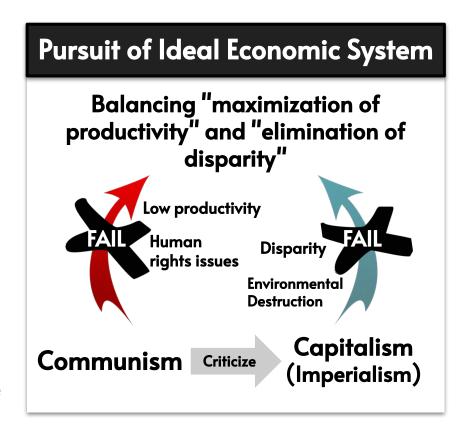

As such, Divine Principle states that the ultimate and ideal economic system is the system of "ID.MP.USV" which would "distribute equally" the world's economy and resources.

Reasons why Capitalism (Imperialism) and Communism failed...?

The ideal and a goal of an economic system is to create an economic society with "no disparity" while "maximizing productivity."

Capitalism runs on the motive to maximizing individual wealth and results in amazing productivity, but it is unable to solve the "disparity." In addition, overproduction accelerates environmental destruction.

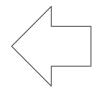

On the other hand, **communism** criticizes capitalism and set its goals as "economic equalization" and to "eliminate disparity." However, it has failed by depriving people of their freedom and motivation, failing to secure productivity.

What True Parents are trying to establish is a whole new Economic Thought

Voluntarily live for the sake of others, productive, and no inequality

Interdependence, Mutual Prosperity, Universally Shared Values

Productive, but unable to resolve inequality due to selfishness

Capitalism

Pursued equality but not productive

Communism

CSG Book 10 Ch.3

Godism is not about living for the sake of oneself. It teaches giving for the sake of others. In short, it is a path whereby one puts others before oneself.

The devil's ideology tells you to live for yourself whereas God's ideology asks you to live for others. That is why the more you give and give and then give again, the more your possessions will pile up in the next world of eternity.

In the **communist world,** the more one gives, the more one loses, and so no one works for others. In God's world, on the other hand, this is not the case, and so everyone works night and day without rest, shedding blood and sweat, for the benefit of everyone else. Those who consistently give in the same manner as God are bound to be blessed. (209-292, 1990.11.30)

How can inequality be resolved?

Chambumo Gyeong Book 10 Ch. 1 (179-171, 1988/08/01)

The issues that remain to be resolved during this century are the cultural gap between the East and the West, and the gap between the haves and have-nots in the North and the South. How can they be resolved? It is through my teaching of "living for the sake of others." The philosophy of living for your own sake belongs to the fallen world; the philosophy of living for the sake of others belongs to the heavenly world. Wealthy North America should live for the sake of its younger sibling, Latin America. North America should willingly sell its assets to help its younger sibling prosper. Only after North America helps Latin America to prosper at least as much as it does, if not more, should it invest for its own people. That is how both North America and South America will become places where God's ideal will eternally reside.

Ocean Hobby Industry Base is a Physical Realization of the IDMPUSV

The **IDMPUSV**, unlike **communism**, does not force equalization through the governing body, but is an economic system in which the people willingly help those in need that **lead automatically to equalization.**

The global **function** of the **Ocean Hobby Industry Base** is to "equally distribute" food and resources around the world.

In other words, the Ocean Hobby Industry Base can be said to be the practical realization of the ideal economic system of IDMPUSV.

Then, what kind of lifestyle would the people who establish and operate such economic system have?

Lifestyle of the OHIB: Hobby Lifestyle

Within the economic system of the IDMPUSV, its members live a

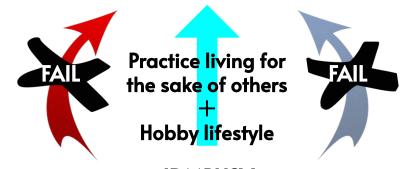

"hobby lifestyle" centered around "living for the sake of others"

Through this, productivity inherent in human beings can be brought out.

That is because through the **hobby** lifestyle, people can live for the sake of others with joy and **maximize** productivity.

Pursuit of Ideal Economic System

Balancing the "maximization of productivity" and "eliminating disparity"

Communism (Satan's Side) IDMPUSV (God's Side)

Capitalism

Hobby lifestyle is the path to God's World

A **hobby lifestyle** is one that maximizes productivity without getting tired, as one carries out productive activities with joy.

This is how the system of **IDMPUSV** can surpass the productivity of the capitalist system.

In this way, we can create the original intended world of creation through a hobby lifestyle.

Pacific Rim Providence Ch. 2

"A life of leisure! This is the kind of life that God likes. Your hobbies are connected to the creation. So many different hobbies are waiting for me.

I never get exhausted. By enjoying one hobby after another, I automatically come closer to God's world. This is the best life that men can hope for." (279-60, 1996.6.9)

What kind of family is one that enjoys living for the sake of others?

What kind of people are people who sacrifice themselves and live for the sake of others as a hobby? The Moon family described in True Father's autobiography was one such family.

"My paternal great-grandfather worked the farm himself, produced thousands of bushels of rice, and built the family fortune with his own hands. He never smoked or drank liquor, preferring instead to use that money to buy food to give to those in need. When he died, his last words were, "If you feed people from all the regions of Korea, then you will receive blessings from all those regions." (Autobiography Ch. 1)

"By the time I was born and was growing up, much of the wealth that my great-grandfather had accumulated was gone, and our family had just enough to get by. The family tradition of feeding others was still alive, however, and we would feed others even if it meant there wouldn't be enough to feed our family members. The first thing I learned after I learned to walk was how to serve food to others." (Autobiography Ch. 1)

If families like the Moon clan gather together and are happy to live for the sake of others even at the cost of their sacrifice, that would establish the IDMPUSV. A group of **families that are** willing and happy to achieve equalization can create the ideal economic system.

Childhood Father whose hobby (game) was to live for others

True Father grew up in the Moon clan, where they willingly and happily brought equalization with others. In His autobiography, he discribes what kind of child he grew up to be inside such a family.

"I was excited to think how good it would feel to give those people enough food so they could eat as much as they wanted." (Autobiography Ch.1)

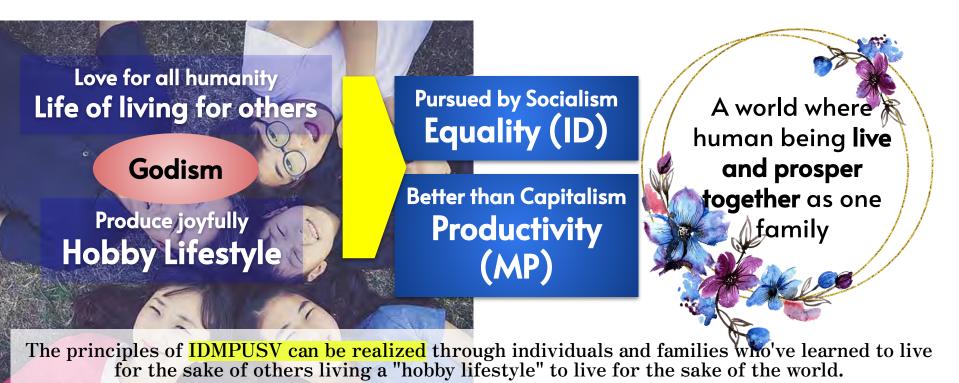

"Perhaps because I was born into such a family, I too have spent much of my life feeding people. To me, giving people food is the most precious work."

(Autobiography Ch.1)

"In any village it is natural that there are people who live well and those who don't. When I would see a child who had brought boiled millet to school for lunch, I couldn't eat my own better lunch of rice. So I would exchange my rice for his millet. I felt closer to the children from poor families than to those from rich families, and I wanted somehow to see to it that they didn't go hungry. This was a kind of game that I enjoyed most of all." (Autobiography Ch.1)

In this way, True Father was so happy to live for others and feed the other hungry children that he called it a "game." This truly is the **hobby of living for the sake of others** that original intended human beings should engage in.

Method to realize the IDMPUSV

The Ocean Hobby Industry Base is a place where we should actualize such originally intended hobby lifestyle.

The OCEAN PROVIDENCE is a Providence to restore the HOBBY LIFESTYLE intended before the Fall

Blessing

Dominion

over creation

Genesis 3:17

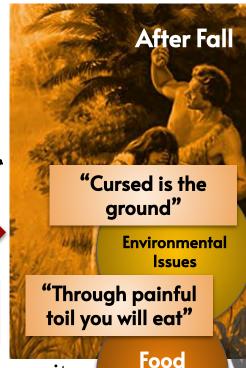

To Adam he said, "Because you listened to your wife and ate fruit from the tree about which I commanded you, 'You must not eat from it,

Cursed is the ground because of you; through painful toil you will eat food from it, all the days of your life.

FALL caused inherent environmental and food issues for humanity

will return humanity to
Ocean Prov. hobby lifestyle before
the Fall

The Ocean Providence is also the method for humanity to return to the **hobby lifestyle** which was to be the originally intended lifestyle.

Problem

Summary of OHIB Forms and Functions

Form of each individual base

Base (collective) of "12 Pillars" such as Ocean Church, fishery & transportation businesses, education, hobby & tourism businesses and others

Function as part of global Ocean Providence

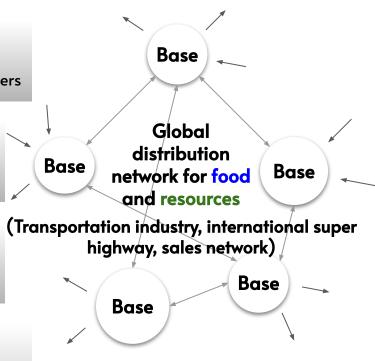

A HUB connecting global food and resource distribution networks to persistently solve the hunger problem

The economic system of the base

Just as water levels automatically, all people joyfully help those in need – **IDMPUSV**

The lifestyle of families residing in the base

Lifestyle **living for the sake of the world** (Ocean Providence) engaging in a **hobby lifestyle** (original lifestyle) centering on the water & ocean, connecting to the suffering of the world, transcending the barriers of race, culture, borders, and religions.

A permanent solution for World Hunger System of economic equalization

(This will be covered in more detail in Part 2 Sections 3 & 4)

Section 2 Part 2

Creating the Model for Ocean Hobby Industry Base

SUMMARY of Part 2 Section 2 Parts 1 & 2 (last episode and today)

The Ocean Church, which was started in North America, was a revolutionary boat-based church that integrated the functions of < social contribution, business, and outreach >.

Ocean Church was meant to be globalized.

In order for the **leaders of the new era** trained in Ocean Church to bring resolution to the global **Hunger problem**, the **Ocean Churches/fishery businesses/Ocean Hobby & Tourist Industry** were to be **globalized**.

Section 2 Part 2

Creating the Model for Ocean Hobby Industry Base

Ocean Hobby Industry Bases are to be established around the world centering on the Ocean Church...

And establish a global food/resource distribution network...

Distribute food/resources as well as technology going beyond the barriers of race, religions, and country...

Resolve the global **Hunger problem** permanently...

Establish the economic system of IDMPUSV...

And establish the originally intended lifestyle of **Hobby Lifestyle** to live for the sake of others...

These are the vast vision True Father intended to realize.

In the next episode, we will discuss more comprehensively the practical and concrete plan to establish this "food/resource distribution network."

END
