## Japanese Missionaries Witnessing in Munich

Munich, Germany, 3. - 15. April 2014

Two Japanese sisters, Miki-san and Hitomi-san, coming from Düsseldorf arrived in Munich on Wednesday 3<sup>rd</sup> 2014. They belong to the group of missionaries who have been sent by True Mother to the providentially chosen countries that are important for the realization of the Vision 2020.

Before they left Japan in July 2013, they had participated at a workshop where also

True Mother was personally present speaking to them.

Together with seven other brothers and sisters from the local community we started the witnessing campaign at our Holy Ground in the English Garden for prayer.

After that we went for a little sight seeing tour to the city center and visited the Marienplatz, the city hall and the Frauentom, the central Catholic cathedral. A good start into this time of activities in Munich.

The days were filled with different kinds of events – mainly witnessing, visiting families, coming to know the city and state of Bavaria and of course the preparations for the seminar weekend with Johannes Stampf from Vienna.
