Dear,

Do you believe that women peace leaders are needed to impact our families, our communities, and our society?

The mother's heart is precisely what is needed to create a Culture of Heart. The unique qualities of feminine compassion and selflessness can heal the world. Here at Women's Federation for World Peace, women and men are working together with tools and support: [empowering leadership education](#) and a [collaborative peace community!](#) Will you stand with women leaders and give your support to this most urgent mission?

WFWP International founder Dr. Hak Ja Han Moon, the "Mother of Peace"

WFWP New Jersey chapter Leadership of the Heart seminar

As expressed by our founder, Dr. Hak Ja Han Moon,

"Enlightened women are the center of the love, peace and service that preserve the family, and a sound, healthy family is **the school of love** and virtue. The starting point of world peace lies with the mothers at the center of such families, families that perfect and bring to fruition God's true love.

**The central role of women** is all the more vital if the unfolding century is to be characterized not by power and technology, but by culture and by love.

It is my fervent hope and expectation that the members of WFWP will take the lead in guiding the movement for restoring true families. That movement is the basis and foundation for **the realization of a world of peace.**"

Our great hope, and what we strive for, is world peace, coming forth from peaceful families. These families are the ones that have been nurtured by women who recognize their own true value and key role in their family and in the world.

With your support, we can continue to share our vision, via education and the expansion of our network of influence, for a peaceful nation and world.

May the year 2020 be the most impact-ful and incredible year yet!

# Leadership of the Heart

“War and conflict arise when we attempt, from selfish motives, to acquire land or possessions that belong to others. Conversely, peace is realized when we invest ourselves for the sake of others, in other words, when we practice true love.”

— Dr. Hak Ja Han Moon, WFWP Founder

As WFWP, we believe true leadership is not about position or power, but about serving others and leading by example. Furthermore, women’s uniquely feminine traits of compassion, forgiveness, empathy, and collaboration are exactly what is needed to

inspire a new paradigm of leadership: one based on practicing true love, that is, love that gives freely and unconditionally without expecting something in return. With more women who exemplify leadership based on heart in diplomacy, politics, the economy, law, culture, sports, the arts, education, and NGOs, we can transform our families, our communities, our nations, and the world.

Through interactive workshops, seminars, leadership retreats, and National Assemblies, we educate and empower women of all ages to use their own unique talents to become authentic, compassionate, and conscientious leaders in their families and communities. Not in competition with men, but in complementarity to masculine leadership styles. Based on our experience over the past 20+ years, we are working to provide a model of enlightened women’s leadership based on integrity, humility, accountability, and a heart which puts others and a higher purpose above oneself.

As empowered women who practice leadership of the heart, WFWP members, volunteers, and supporters then put living for others into action through local community service projects, such as the [Women Helping Women Purse Project](#), [Day of Service](#), and more.
