

Global Women's Peace Network USA's Overcoming Hate Online Forum

Angelika Selle
December 9, 2020

To promote the culture of peace and healing at this crucial time, Women's Federation for World Peace USA held their fourth Reflect. Reset. Rebuild. online forum on December 9th, to actively engage on the theme "Overcoming Hate."

Two expert leaders, Ms. Maggie Steele, Mindfulness Teacher at 'Peace in Schools' and Mrs. Deborah Levine, American Diversity Report Founder and Editor-in-Chief, brought hope and encouragement through sharing the science behind hate, the role of language in healing, and their personal stories and experiences. WFWP USA then honored Mrs. Levine's lifelong achievements with a HerStory Award. The program concluded with the Crown of Peace poem, and a Mother of Peace Memoir giveaway. The positive feedback from participants and request for more on the topic was overwhelming.
