December 9, 2021

Dear,

Greetings from Women's Federation for World Peace USA!

Why should we marry? While many might think marriage an outdated institution, there's a growing international, interfaith, interracial movement uplifting the sacredness of Marriage and Family as the vehicles to achieve lasting peace. Join us on **December 18, 2021 from 5:30 to 7:30 pm eastern for a very special Watch Party of the Blessing Fest, an international Celebration of Marriage and Family for Peace** and evening of upliftment, celebration, and inspiring messages.

As a spiritually motivated and socially engaged federation for women, our vision and philosophy of Living for the Sake of Others and Living by the Logic of Love, will be highlighted and endorsed beautifully in this upcoming festival. Hundreds and thousands of families throughout the United States and beyond are joining in to celebrate marriage and family as a sacred and powerful institution. It is the school of love where joy, happiness and peace can be experienced.

The highlight will be a **brief message from WFWP Founder Dr. Hak Ja Han Moon** who has worked tirelessly with her husband to promote family as the school of love and peace and substantially uplift, revive and transform marriages as the foundation for healthy families, communities, and world.

There will also be performances from some of the best talents around, and moving and practical testimonies from women leaders. **You'll also learn more about the revolutionary, transformational formula for resetting, reviving, rejuvenating, and building long-lasting and fulfilling relationships** in your marriage and family!
