

HAPPY INTERNATIONAL WOMEN'S DAY

*Angelika Selle
March 9, 2014*

*Dear Esteemed Families, Friends,
Women and Mothers,*

*Wishing you a very special day today as we celebrate
"womanhood." Women today indeed represent
"half of the sky" and they have a very important role to play in our daily
works for lasting peace.*

*Let us be proud and grateful to be women as Women's Federation for
World Peace and its Founders have been proclaiming, this is the era of
women!! Therefore, it is great to be a woman, to know it, and to show it.*

Have a happy day!!

With love Angelika Selle and

CELEBRATE INTERNATIONAL WOMEN'S DAY

***"Peace describes a state of spiritual and physical harmony --
an ideal state of being for the individual, the family,
the society, the nation, and the world.***

***God created men and women
to live as equal and eternal love partners and
the family to be the 'school of love and peace.'"***
