Dear Friends and Supporters of WFWP USA,

Summer greetings!

I would like to invite you to support an issue that is very close to our hearts, with regard to a longstanding injustice toward our co-founder the Rev. Dr. Sun Myung Moon, which we would like to take a small step toward rectifying and healing;

As you might know, our WFWP co-founders, Rev. Moon and Dr. Hak Ja Han Moon, came to the United States in the early 1970s, obeying a calling from God to remind Americans of their founding principles and morals, and to reawaken them to the need to practice them. They could already foresee the danger of America losing her moral fiber altogether, as drug and alcohol abuse, licentious behavior, and family breakdown were already rapidly rising back then.

Father and Mother Moon therefore invested all their efforts, prayers, tears, and resources into awakening America, even in the face of massive persecution, misunderstanding, and rejection. This opposition culminated in an unjust imprisonment of Father Moon in federal prison in Danbury, Connecticut on preposterous and bigotry-based charges of tax evasion.

In the wake of the second anniversary of Father Moon's passing, WFWP USA is joining together with other organizations, leaders, and institutions to sign a Statement of Recognition and long-overdue apology. All the collected signatures will be offered to Mother Moon as a belated but most significant expression of apology and regret.

We invite you and your associates, friends, and families who believe that Father Moon was treated unjustly and who appreciate what he and his wife have done for America and the world to sign this document.

For more detailed information and to sign the petition on line, please click on this link:

**[SIGN PETITION HERE](https://familyfed.org/danburyapology/)**: <https://familyfed.org/danburyapology/>

Our goal is to gather 12,000 signatures by August.

We thank you greatly!

President WFWP USA  
Vice- President WFWP International
