Thank you for all your love, hard work, sacrifice,  
endurance and for being there! You are indeed the  
salt of the earth, giving life its flavor, taste,  
and deep nourishment of love.

The world needs YOU! Enjoy this day to the fullest!

"Where does the vibration of love come from?"

It comes from the mother's womb. Your mother's love is the first thing you receive. She is the first one to create a loving relationship with you.

Although your father also loves you, while you are in your mother's womb she pays you a great deal of attention, caring more for you than she cares for herself. To protect you from harm, she is careful of what she says, and she does things with a loving heart. Love begins from a mother."
