Angelika Selle

May 2, 2018

Job Title: Web Developer

Job Location:

Job Type: Part Time

Job Description:

Women's Federation for World Peace is currently looking for a skilled Web Developer who is creative, innovative, and experienced in maintaining the look, feel, and consistency of the website, including content organization and design. Some of the skills needed are:

Web Developer

Organization and development of new sections and subsections, adding articles onto website.

Proficiency in maintaining/adding content to a PHP based Website (CMS - Content Management System) – Joomla & Wordpress preferred

Past experience/fluency with CSS, HTML, PHP, and MySQL

Basic Photo Editing Skills

Fluency in written English, and experience editing, or writing articles

Self-motivated, proactive individual who does not require much guidance

Ability to work from home with own software/hardware

Experience trouble-shooting and fixing website related issues and updating hosted software and plugins

Ability to quickly learn new systems, or reverse engineer old systems without help

Work well with the rest of the WFWP team and President to introduce changes and develop new features for the website

Manage a password protected member-only area

Attend the occasional conference calls as needed

To apply, please email info@wfwp.us with a resume.
