

## WFWP USA: How to help African kids stay healthy and strong - Schools of Africa

Angelika Selle  
July 12, 2019

10 schools  
2,000+ students  
15,000+ graduates

**Over 7% of Liberian children under the age of 5 die young.** Many die of diseases, like pneumonia, that are preventable through hygiene education. The Peace Hana School is a nursery, Kindergarten, and elementary school caring for nearly 100 children. The school not only provides a necessary education, reading and writing, but also teaches the children basic hygiene, like hand-washing.

Thanks to generous donations, the school has been able to keep up its hygiene regimen, following the end of the 2016 Ebola outbreak in West Africa, by making repairs, giving students personal desks, and continuing hygiene education. The Peace Hana School is a true lifesaver for these kids!

[Yes! I want to support Schools of Africa!](#)

[Your gift of \\$200, \\$100, \\$50](#), or whatever amount you choose, gives these children a safe, clean learning environment, by providing antiseptic soap, bug spray, thermometers, and educational materials. Your gift means a healthy future!
