

The Sanctuary process of the matching and blessing

Dorit Smith
August 25, 2016

Dear Families and Candidates:

This morning I read in the “Cheon Seong Gyong,” page 1289:

“Protecting and guarding chastity of men and women is the same as protecting the universe. This is because the order of love between man and woman is the basis of the universe. The Sexual organ is more important than the head. You cannot find the origin of true love in your head. You cannot find the origin of true lineage in your head. Where is this origin, then? It is the sexual organ. Isn’t that only too true? Everything can be found in the sexual organ – life, love, and lineage. It is the main palace of love. You can find the root of life there. It is the same in the case of lineage. The sexual organ is the most precious part of the human body as well as the human world and history of humanity. Without it, reproduction of humankind would be impossible.” (1990.6.17)

We had a Commemoration of True Father’s Seunghwa, a one year Celebration of Foundation Day, and a wonderful Blessing Celebration on August 19th.

After the Blessing, forty of us gathered for the Matching Blessing Workshop. I shared about the process of the matching and blessing, plus the importance of following God’s command to us about the husband loving his wife and the wife respecting her husband (Ephesian 5:33). Afterwards, we had testimonies and introductions to get to know each other. On Saturday, we joined the OSDP and went to the Promised Land beach in the afternoon for sports and sharing. That night, Jamal Johnson shared about growing and being able to love one’s enemy, because sometimes our spouse can be our enemy. Where are you at

with your level of maturity?

Remember to be mindful of the following when using the Sanctuary Blessed Life website:

1. Contact one family or candidate at the time.
2. When you are talking seriously to someone, please hide your profile.
3. Be honest about your situation, like if you fell or have a serious illness or anything the other person should know. Also ask questions; there is a list in the Matching Handbook Appendix.
4. You should only be on the website if you are willing to receive the Blessing from Hyung Jin Nim.
5. We all like peace! Please let the webmaster know if someone is abusing the site via the contact form on the site.

If you need help, contact Dorit Smith or a Matching Advocate! A list of names and emails can be found at: sanctuaryblessedlife.org/matching-advocates/

Always remember that your spouse is a gift from God. The end of Summer is almost here, and I hope all of you have felt God's love and embrace!
