Meaningful Time Experiencing Growth and Change

The Republic of South Africa Family Federation Future Generation 7-Day Workshop was held in Johannesburg from July 6-13.

This program brought together various age groups from Hyodeong youth to young adult groups, focusing on self-reflection and establishing life direction centered on True Parents' words.

The Hyodeong children built the foundation of faith through experience-centered education, and the youth group received education for instructor capacity building, cultivating the qualities of future leaders.

Participants had meaningful time experiencing growth and change by training their bodies and minds through daily lectures, team building, and climbing experiences.
