Dear Regional Leaders, National Leaders, City/Community Leaders,

Please make your membership aware of this precious opportunity to receive these very important lecture presentations which are being delivered as a part of the True Parents' Liberation Project for our worldwide leadership and membership according to our International President's instructions. They are the result of extensive work carried out by key lecturers who have studied True Parents' life course. This time Rev. Yong will pay special attention to preparing for Foundation Day.

Purpose and Aim of the Education

- 1) To elucidate the path of the Messiah, Saviour and King of Kings identified in True Parents' life course, and the process of their victory in saving humankind.
- 2) To proclaim and clarify the principles and theology behind the providence of restoration and the inevitable courses that arose in the process of the restoration of lineage carried out through indemnity conditions and for the salvation of humankind.
- 3) To facilitate an understanding of Christianity and other faiths and of the footprints of True Parents' messiahship in the world, dispelling misunderstandings surrounding the conversion of lineage and misconceptions that led to our movement being branded as a cult.
- 4) To provide focus so that members can get an understanding of the current providential circumstances and the path that we should take towards Foundation Day, leading to the revival and growth of our members in this era of the providence of re-creation.
