

Original Substance Divine Principle Workshop Education seminar in preparation for Foundation Day

Oslo, Norway, 5.- 6. January 2013

In order to prepare all Norwegian members, and in particular those without OSDP seminar, for Foundation Day we invited Rainer Fuchs to give this special seminar.

It was the first time for our members to listen to Rainer locally in Norway. And according to the good attendance, members seem to have had great expectations to the weekend. The participation of 56 members were better than expected.

The first day covered the historical process for the change of blood lineage, centered around the women. Even without any powerpoint all participants listened attentively.

The second day addressed the meaning of the Foundation Day, much based on the content of Professor Oh. A question and answer session concluded the seminar.

The content was very appropriate, useful and to the point in order to prepare members. The comments from brothers and sisters were very good. Several members expressed their thanks and appreciation. For one Ambassador for Peace the content was very new, almost shocking, but she still believed that God had guided her to be there to receive it.

We can only receive to the degree that we are prepared and receptive. And in that sense the seminar was excellent and gave us a chance to wash our heart and mind for the coming Blessing . A video recording was made for those that could not attend and for others to be able to see it again.
