

FFWPU USA's Blue Dragon Tour crosses United State proclaiming True Mother

Yong Cheon Song
April 24, 2024

The Blue Dragon flame revived the spirits of the young and the old across America! The momentum first caught fire on the East coast on March 8, in Washington, D.C.

Rev. Demian Dunkley, Regional President of the American Movement, shared True Mother's hope for America in presentations called "The Year of the Blue Dragon Focus" and "The Truth of the Providence." Rev. Dunkley said, "Mother mentioned the year of the Blue Dragon, the year that we will blow away all of the negative spirits of the past. And that's really the theme of the whole year. We've got hundreds of youth preparing to go to Korea just to be with True Mother. I want to limit the amount of time it takes, and limit the gap that might exist between any one of us and God's only Begotten Daughter."

The Blue Dragon flame then spread West to Los Angeles on March 15 and on to San Francisco on March 22. The blue flames then moved southward to Dallas on March 29 and Chicago on April 5. Hundreds of blessed family members, clergy, and newly joined members gathered to have their hearts cleansed and reborn through intense evening prayer vigils at the local Cheon Shim Wons.

Another spiritually cleansing aspect of the Blue Dragon Tour was the powerful CheonBo Great Works Liberation led by Dr. Ki Hoon Kim, Cheon Eui Won Chair for North America, and the bequeathing of the special Cheon Shim Won purple jackets and the special Death Valley Holy Salt, which was blessed by True Mother. At each location, Rev. Dunkley shared True Mother's sentiment about America being God's

shortcut for the providence and how Heavenly Parent told him to tell America that He loves them and that they are called for a great purpose, which is to tell Christianity about the Only Begotten Daughter. Two Christian pastor couples, Bishop Keith and Paulette Allen and Rev. Mike and Gina Nettles, were so inspired that they committed to attend the Cosmic Blessing in Korea with True Mother on April 24, 2024.

Many 1st- and 2nd-generation Unificationists became more aware of painful areas in their hearts and challenging feelings towards True Mother, however, through the lectures and the evening prayer vigils, they rediscovered True Mother as the Only Begotten Daughter. 2nd-generation Unificationist Robert Abendroth, Assistant Pastor of the Capital Family Church in Washington D.C., shared, "I feel like leaders are gonna start leading less and the spirit is going to start leading more. That's what I felt during this and that's why I saw these young adults standing up."

In the Bay Area, young adults held a loud and highly competitive yut tournament to win prize money that would help the winners pay for the Blue Dragon Pilgrimage in Korea.

The Blue Dragon Tour to Korea is a 10-day spiritual adventure where hundreds of Americans spend time at Chung Pyung, visit historical church sites in Korea, and support newly blessed couples at the Cosmic Blessing Ceremony. The next issue of True Peace magazine will cover the momentum of the pilgrimage held April 17-24 and the Blue Dragon Tour stops in America held after the pilgrimage in Indiana, Las Vegas, and Atlanta.

Youth and young adults in America continue to hold evening and morning prayer vigils at their local Cheon Shim Won prayer halls to unite deeply in heart with True Mother.
