

FFWPU USA Subregion 5: Pray for 46 members in the Seattle community with COVID

Kevin Thompson
November 24, 2021

After Dr. [Chung Sik] Yong's tour, forty-six members in the Seattle community and others have gotten COVID. A few of them are in the hospital and need special prayers.

In particular, Brian G. is in intensive care. His condition has become more serious. He was recently put on a ventilator to receive more oxygen and is heavily sedated now. His medical team says that the next few days or weeks will be crucial to see how his body responds to the COVID-19 pneumonia. No one (not even his family) is able to visit him, so he needs a lot of spiritual support, encouragement and strength at this time.

Please pray for his medical team. Please also pray for his wife and their six children who are going through this difficult time.

[The full list of names is here.](#)

Please pray for the full recovery of our members and their families.
