A CheonShimWon prayer hall

Dear brothers and sisters,

It is inspiring to see the development of CheonShimWon prayer halls all across America including the western region. This is in line with True Mother's direction. She is urging that we can take all of our questions and struggles directly to Heavenly Parent and can also call upon True Father for guidance and understanding.

Settling the CheonShimWon is also the foundation for witnessing victory. When we are working with spirit and truth then great results can be achieved. Let us seek for the people whom God has prepared for this time, especially people who can help move God's Providence forward.

These are the prayer points for this 40 day condition which we are in.

Please include these prayer points.

For True Mother's Health and Safety

Unity with True Mother and understanding the essence of True Mother as the Only Begotten Daughter of God

Witnessing to increase local church membership

Establish Cheon Shim Won in every church

Read True Mother Memoir in a Daily Cheon Shim Won Prayer Vigil

Thank you for all of your investment for CIG. You are the people who inspire God and True Parents.

God Bless,

Kevin and Masako Thompson
