Bay Area Halloween Festival

Brothers and sisters,

LA had a HJ Nuri Service around Halloween! check out what they did here

We really enjoyed seeing the pictures from the various Harvest Festival/Halloween parties. There was a lot of fun and enjoyment for children young and old. It should also be a natural witnessing opportunity for our own young people, families who are not participating much and for the neighborhoods. I know that in

the Bay Area Family Church we had 460 people which included so many of our own young families as well as friends and neighbors.

Thank you to everyone for the continuing growth of the numbers of Cheon Shim Won prayer halls. Last week Portland Oregon had Dr Ki Hun Kim come there and open their CSW which was a big boost for the Portland community. Soon San Diego will open too.

Let's not forget the direction from True Mother to witness, witness, witness. Let's witness to myself and my loved ones and then find a way to witness to one other person.

God Bless,

Kevin and Masako Thompson
