# **WEST REGION FAMILY NEWSLETTER**

Brothers and sisters,

True Mother concluded her successful tour to South America, with stops before and after in Las Vegas. It had been many years since Mother had been to South America and she particularly brought much hope to Brazil with over 1500 "pure water" youth gathering. True Mother said that she didn't come alone but was accompanied by Heavenly Parent and True Father.

True Mother has asked for our help to bring spectacular results in America. She is talking about result like we have never seen before. The fact that she is asking for such results means that it is very possible IF we have faith. Through our faithful conditions we want to allow God and the Holy Spirit to work in mighty ways. I am asking each of us to think differently than ever before. Let's have faith that God has prepared so many people to meet with the Only Begotten Daughter. Old thinking will bring old results and limit heaven's power.

Brothers and sisters, let us utilize the Cheon Shim Won prayer room and make strong conditions of faith. I invite you to attend the Regional Morning Devotion and the evening prayer vigil. Through our united devotion we can see greater blessings for our families and allow God to send our direction the people who are prepared. If everyone single one of us has the right mindset and everyone is doing their part to support our witnessing efforts then greater miracles can take place.

True Mother is relying on America to help her to shorten the providence. Let us do our best. She also urged us to not be like Moses who died in the wilderness after doing incredible things during his life. Let us finish this journey which we started many years ago and be victorious in front of heaven.

God Bless,

Kevin and Masako Thompson
