Dear brothers & sisters,

Happy New Year 2026

We know that 2025 has been a mixed bag and maybe on a personal level for many of us.

However, we must maintain our faith at all times.

Thank you, you are the people who are maintaining such faith and not being swayed by forces within and without.

We begin the year of the red horse, I pray that you will be strengthened on your journey, and that true Mother will be released.

God will prevail.

God Bless,  
Kevin & Masako Thompson
