

President Dunkley is embarking upon a nationwide tour of all of our churches

Dear brothers and sisters,

Can you believe it. January is gone. Time flies.

Still True Mother is in a terrible detention center as Korea acts as a third world country rather than a modern democracy.

Korea is sliding toward communism and the first thing that communist regimes want to do is get rid of religions.

The religious leaders who stood with President Lee to denounce Family Federation as a "heretical" group were also signing their own demise as they will be next if this is allowed to continue.

We call upon the White House and the Vatican to take a stand against the government of Korea and indeed against the Catholic leader in Korea who signed on to this stupid document.

President Dunkley is embarking upon a nationwide tour of all of our churches.

He is scheduled to come to a church near you, please check with your pastor.

President Dunkley's message from Washington DC will be broadcast live on Sunday.

God Bless,

Kevin and Masako Thompson
