WEEKLY NEWSLETTER

Cheon Il Guk Missionaries

With just under a week left of their Fall Training, the CIG youth missionaries continued their witnessing and fundraising efforts and, for this week, had lots of time for festivities. Over in the Bay Area, the team joined with CARP to host a 3-day retreat at Heavenly Hills Christian Camp & Retreat Center, where they presented an overview of the Divine Principle and had a fun, bonding time as brothers and sisters. The Hawai'i team continued their weekly investments, joined a social event with CARP at a pumpkin festival, and spent quality time with the local youth before flying off to the West Coast teams to conclude their fall training there. The Los Angeles team joined the LA youth in visiting a pumpkin patch and participated in a HyoJeong Nuri and Halloween Sunday service where our youth missionaries Shawna and Reina danced to the BTS song "Dynamite" as an offering on behalf of CIG/GPA to the LA community. All the teams are determined to finish the fall training strong and offer lasting fruits to their dear communities.

Heavenly USA

Heavenly USA is spending five days fundraising to complete their love offering for True Mother. Even though it's been some time since they experienced the Rebirth Workshop and seeing True Mother in Las Vegas, the team still has the heart to invest in our Mother continually. After they conclude the week, they will transition into their next mission, a month of investing in our church communities in Harlem, New York, and Atlanta, Georgia. The theme for the month is "Inherit the Spirit of the Early Days." Responding to Mother's call, the members will try to spark within themselves and others the spirit our early members had. After four months of training, the HUSA members are excited to implement everything they've learned as they reach out to their brothers and sisters.

First Years and Captains

The first years and captains are heading towards the end of their second fundraising condition of the year. The teams are fundraising in Colorado, New Mexico, Utah, and Arizona. Through this fundraising time, the members seek to develop their faith and relationship with God further. The internal goal is to "Find and substantiate God's value for me." Next week, they will participate in a mini-competition between groups to help prepare for the spirit and vigor of the Winter Competition, which will take place after the next workshop.
