

Sin And Salvation

Doug Wetzstein
March 5, 2025

Being born into a species ignorant of its own eternal value and purpose is a life fraught with uncertainty and pain.

In the absence of recognizing God's one universal standard for mutually beneficial and prosperous relationships, humanity lives in conflict taking unfair advantage and even taking life.

Not until humanity realizes God's One Will for creating it, will we be able to mature into God's sinless offspring populating the Earth as a matter of choice and Free Will.

There are three types of sin one can suffer, because there are three types of Blessings one can receive.

There are personal sins, inherited sins and collective sins.

Personal Sin is the offense we commit implementing or with holding our Free Will for selfish or destructive purpose.

Inherited Sin is our family's offenses not yet indemnified nor restored.

Collective Sin is the sin of our society. The offenses we turn a blind eye to as a nation or as a people.

The path to God's Blessings, Peace and Prosperity is an interdependent march in the opposite direction and achieved in three ways.

As individuals, families and as a society or nation of people working to establish an ever higher standard for human intercourse.

A standard above bickering and suspicion, and generous with God's empowering and mutually beneficial prosperity.

God endeavors to present harmony and prosperity to humanity. It is humanity's job to mature and become God's determined offspring, learning to embrace and deliver God's principles for Universal Family love to our children, siblings, spouse and parents.

Then, when our human family has been properly schooled in the principles for God's universal love they will practice them and reap its rewards as individuals, families, nations and as a harmonious species living on this Earth.

It is apparent God expects our cooperation when he shows up with something more, not stiff necked rejection to unite, then rejoice by killing those sent to save us.

We must grow in our understanding of God's Eternal Will for humanity to become sinless and learn how to own it. There is no other way!
