Guidelines on the Certification of Heavenly Tribal Messiah Victors

The International Standard for a Completed Heavenly Tribal Messiah Mission is the final stage prescribed by the International Headquarters. This final stage includes (vertically) blessing 430 generations of our ancestors, (horizontally) having all 430 couples within the HTM tribe complete all 7 conditions (education, Blessing donation, Holy Wine Ceremony, Blessing Prayer, Indemnity Stick, 40-Day Separation, 3-Day Ceremony), tribe members growing into regular members, and attending the Registration Blessing Ceremony.

Below, however, is the minimum standard required to become certified as a Heavenly Tribal Messiah Victor. The conditions are as follows: Vertically blessing all 430 generations of ancestors, horizontally securing 430 couples the HTM tribe, and having at least 43 couples out of the 430 couples that have completed all 7 conditions. This is on the premise that the remaining 387 couples in the tribe will complete the 7 conditions over time.

- ※ For now, the vertical standard for the completion (certification) of the Heavenly Tribal Messiah mission will be given to couples that have blessed 210 or more generations of ancestors from all eight lines. However, in keeping with progress made in the ancestor Blessing Ceremony being held the Cheongpyeong Heaven and Earth Training Center, the standard will gradually be raised until it reaches 430 generations, the final number required.
