In that short time, we have already reached the 10th Hyojeong Nuri. He also explained that True Mother visited the Busan church on July 3 to begin the 40 days of preparation for the 10th Seonghwa Anniversary, and that the Hyojeong Nuri, on the 10th day of the Seonghwa Festival, was exactly 50 days since True Mother inaugurated the special Seonghwa devotional period. He also led the assembled congregation in offering gratitude to True Mother for her leadership and guidance and for coming in person to celebrate the Hyojeong Nuri with us.

True Mother has guided us to hold this Hyojeong Nuri, which we can celebrate with all the generations of our families together at the end of the Seonghwa Festival, and invited all the children, parents and grandparents to join in celebrating with the them of "Let's meet Wang Appa! Let's Help Wang Omma!"

"Wang" originally means "king" but it is also used when we want to show that something to talk about something indescribably big and wonderful. Everyone joined together to experience the hearts of Wang Appa and Wang Omma through singing together through the spirited dances, drama and other performances. Dr. Yoon called on the 5000 members who were gathered to "pass on the heart of True Mother as you share this day together."

Following that a Hyojeong offering was presented, and everyone united in heart with the four representative teams (from Heavenly Korea, groups of exemplary pastors, exemplary members, exemplary active young members, and a group of 2nd and 3rd generation children), who offering the heart of hyojeong from their devotional activities that had made it possible to bring a great victory for the 10th Seonghwa Anniversary through the 40-days special preparation period.

The cake cutting ceremony with True Mother celebrated the victory of the 40-day preparation and the 10th Seonghwa Anniversary, under the theme "Let's meet our deeply missed True Father, and comfort True Mother."

Gifts were offered to True Mother with a heart of Hyojeong, with various youth leaders representing all the members in attendance (YSP leaders, CheonBo families, the Hyojeong special project team which is guiding the education of Seonghwa students and teaching hyojeong culture, and teachers of Seonghwa students from across the nation).

True Mother offered a special message to the young people and families who were gathered.

"Today a precious girl, Moon Jeong-ah was born, in the 4th generation of True Parents' family. Do you all know what a miracle it is that True Parents came to the earth after 6,000 years of preparations?"

True Parents! What do all the grandparents, parents, older brothers and sisters and 3rd and 4th generation children all call me? (Wang Omma!) Do you understand what a precious thing it is that you are able to live here on the earth here now at the same time as Wang Omma?"

I want all of you to be the kind of children who can bring joy to the heart of Heavenly Parent, who has been struggling in loneliness and pain for thousands of years since the Fall. Please offer your heart and love to Heavenly Parent in place of the children who are still lost."

In the Hyojeong Story Garden, as a special feature to celebrate the 10th Seonghwa Anniversary, the life of True Father as a trailblazer for peace and unification was presented. The story of True Parents' lives was presented in several sections: (1) their early lives and calling to the mission, (2) the day they became the True Parents (Holy Wedding), (3) True Parents, our pride – working for world peace, (4) True Father's Seonghwa; and showed many exciting and stirring scenes.
