# The Mission of the New Truth

August 14, 2017

The nature of the Korean language.

I don't speak Korean, but know its syntax is opposite to the basic order of English.

Syntax governs the way the mind works.

English speakers think in terms of

*who did what to whom? What are you saying to me?*

For Korean, it's "What? You don't understand that?"

In Korean syntax, the verb comes at the end;

there are no prepositions.

Is it one of a kind ("the"), or one of many ("a")?

It's not clear!

Singular and plural in Korean are ambiguous, gender is unclear, verb tense is ambiguous or unstated, whether a verb is active or passive is unclear, subject partners go unstated (the reader is assumed to know without being told) and, most importantly, subject-object relations are ambiguous.

Korean is a language that trusts the heart of the listener to grasp what you mean.

- The Bible and Divine Principle are not just Great Books

They are Our Daily Life!

- As soon as truth is discovered it (should) enter immediately into our consceous reality.

### **Power of the Word**

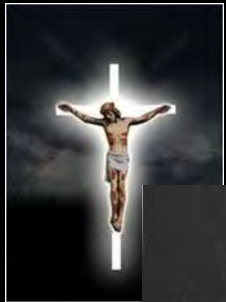

- The Fall of Man started because Man listened to the Wrong Word – satans!
- The New Word = Truth, Bible + Divine Principle will bring Man out of the Fall and that error.

After the books *Repentance* and *Ideal of the Circular Garden of Harmony* were lost, beginning in May 1951, True Father spent a year personally writing the *Divine Principle*.

1973 Study Guide 1&2 by Young Whi Kim  
1980 DP Level 4

Upon arriving as a refugee in Pusan,  
Reverend Moon wrote and dictated  
The Original DP – 5 Books 900 pages!.

The earliest manuscript of the  
Divine Principle  
was lost in North Korea  
during the Korean War!

## Wolli Wonbon 1952

When I wrote Wolli Wonbon, I wrote it in a condensed form.

The content of even one page requires dozens of pages of explanation. An ordinary person is simply not able to understand it deeply, even after reading and reflecting on it. /SMM 2003/08/14

Comment: The [link](#) is downloaded from a Japanese website which is an unofficial blog created by those who are/were(?) connected with UC,

So far the (original paper) Wolli Wonbon is not available, as it is very old and fragile, and almost nobody can see or touch it.

Therefore, this file was created based on the transcription by **Rev. Kim Won Pil**,.

The Wolli Wonbon was written in old Korean used in Northern part of Korea and also with many Chinese characters are used. (It has no spaces, so chinese characters could be interpreted as one or two together=differemnt meanings)

So it will be very difficult to translate and make it understandable.

## Wolli Wonbon 1952

Wolli Wonbon has great significance in that it was written in True Father's own handwriting.

It is the earliest manuscript of the Divine Principle in existence.

In the early days of the church some of his disciples transcribed Wolli Wonbon and shared their copies with others, passing them around.

## Wolli Wonbon 1952

I wrote a book about the Principle, Wolli Wonbon, at Beomil-dong in Busan, overlooking the harbor.  
I first noted the main points in outline form, and then started writing.

I wrote the ideas in condensed form, like poetry.  
Since I just wrote the essential points, people could not easily understand it unless I explained the main points to them.  
This is how I wrote the text.

/ CBG Book 3

Link: Wolli Wonbon

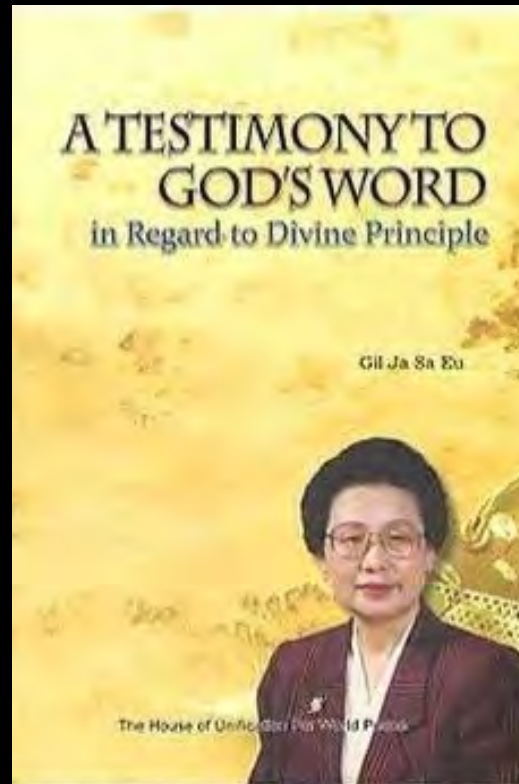

Father once taught us what the four most important points of the Principle are;

- The first point is the true relationship between God and man
- the second point is the relationship between the spiritual world and the physical world
- the third point is man's portion of responsibility;
- the fourth point is the problem of Cain and Abel.

Without understanding the problem of Cain and Abel, we cannot understand the problems or the goal of history. And through understanding all four points, we can connect with God.

True Father told us that the other name for Principle is 'Natural Law'  
The Principle is not a religious dogma that has to be taught only within  
the Unification Church.

Instead it is the Natural Law created by God for everyone to obey.

After he came to South Korea, from May 11, 1951 to May 10, 1952, for one year, Father wrote the original text of the Divine Principle.

Then the next year, starting in July 1953, he began to preach his new words.

1953 was the year during which Father was 33 years of age, exactly the age at which Jesus left this world.

/Young Whi Kim 2013

Comment: In Cham Bumo Gyeong TF sais

if Jesus could have continued over 33 years until he was 40 years old

he would have become **True Parent**

**Jesus was most likely at the border breaking through between 2nd and 3rd 7 year-courses**

**The Holy Marriage of the Lamb took place 1960, when TF was 40 years old!**

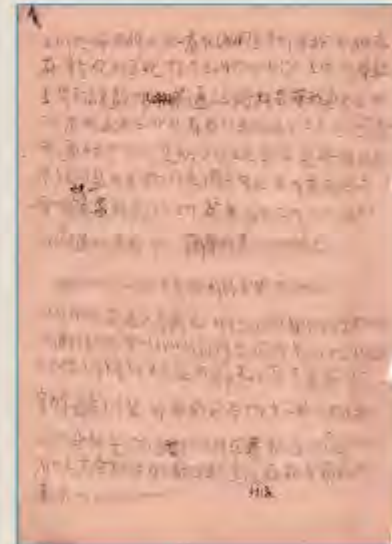

**1953 the Korean War ended – TF 33 years old!**

**See next slide ! /B**

# First Manuscript of the Principle

- Father wrote it by hand, in Pusan, beginning in May 11, 1951
- First section title: "From the One to All Beings"
- Finished it one year later, in May 10, 1952
- Only after finishing it did he begin witnessing
  - Met Mrs. Kang Hyeon-shil the next day

## Example: “Object Partner”

- In EDP, **object partner** is a position relative to **subject partner**
- Subject partner – object partner speaks to the need to restore proper position after the Fall
- Object consciousness is humble, serving and attending
- God (True Parents) is the Subject Partner; we obey and serve as object partners
- Emphasizes position, not quality of relationship

- **In Wolli Wonbon, object partner is about the ideal of relationships**
- One's object partner is one's second self
- Living for each other
- My object partner's joy is my joy; my object partner's sorrow is my sorrow
- Some object partners in our life:
  - Spouse
  - Children
  - Parents (filial piety)
  - God (God is my object partner and I am God's object partner)

# Honors the Victory of the Cross

- By accepting the cross as an indemnity condition, Jesus paid the price for the sins of history
- The cross began the 3-day course to the resurrection that launched Christianity
  - Jesus confronted Satan and won
  - Compare Moses' 3-day course that began with his confrontation with Pharaoh
  - It made the condition for God to release His people
- Despite God's disappointment that people did not support Jesus to fulfill the entirety of the Will, the Cross was still a victory
- "The Victory of the Cross," *Journal of Unification Studies* (2021)

# Explains Change of Blood Lineage

- Meaning of circumcision in EDP: remove fallen blood
- Physical circumcision of the Jews points to the fundamental indemnity condition to restore the Fall
- Zipporah circumcising her son saved Moses' life → Jesus needs a condition of circumcision to keep from going to the cross
- *In Jesus' course, it required (1) circumcision of the heart (2) actual condition to reverse the Fall*
- Mother Mary needed to circumcise her heart if she was to procure Jesus' Bride
- Judas Iscariot needed to circumcise his heart to let go of Mary Magdalene so she could unite with Jesus (Adam) and restore the position of fallen Eve

## Conclusion Is True Parents

- WWB begins with the God of duality—of male and female
- Adam and Eve failed to realize God's duality
- Lord of the Second Advent's mission is to inaugurate the Original Father and Mother

People living in the world at this time should build the eternal Kingdom of Heaven centering on the Original Parents, who are the True Parents. The Original Father who will be inaugurated by the Lord of the Second Advent is the eternal Father, and his Bride will be the eternal Mother. With them, the cosmos will welcome a new beginning. (651)

Conclusion; The Principle talks in the beginning  
about a God of duality; Man and women –  
Father and Mother. = **True Parents**  
That is the Mission of Jesus and the Second Coming

## Introduces God as Heavenly Parent

In human history thus far, God has manifested Godself only as the Father, not as the Mother. Yet, no one even thought about the fundamental reason why God, who is our Parent, has appeared only as our Father but not as our Mother.

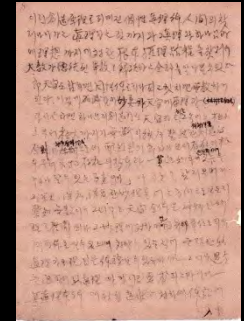

How must God the Father feel to see us, children who do not even know that we have lost our Parent? God's pain and sorrow must be beyond description. This is the reason that human beings, God's children, have flowed along the current of history being unable to resolve their own suffering. (278)

**God is our Heavenly Parent; Heavenly Father and Heavenly Mother**

## Will Wolli Wonbon Become the Scripture of the Principle in the Cheon Il Guk Era?

- EDP concludes with the Second Coming:
  - When will he come? How will he come? Where will he come?
  - Teaches at the Christian level
  - Purpose to lead Christians to the Lord of the Second Advent
- A text of the Principle for the end of the New Testament Age
- True Mother recognizes that a new text is needed, but who can write one that has the authority of True Parents?
- Wouldn't it be better to present Father's own words?

Quote SMM;

I did not discover the Principle only from reading the Bible.  
I thought, "If Genesis is the chapter on the Human Fall,  
the Book of Revelation is the chapter on Restoration.

Since something went wrong with the tree of life,  
it must be restored through the tree of life.  
If it doesn't work that way the Bible is misleading."

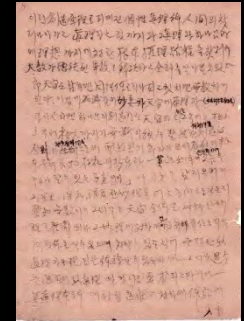

Anything that comes from a seed returns to a seed.  
That is how it ought to happen.

In a similar manner, the sprout from the seed grows  
upward and not sideways. It has to be this way.

The Principle that I am teaching today is in accord with  
history from the providential viewpoint.  
It is based on a deductive method.

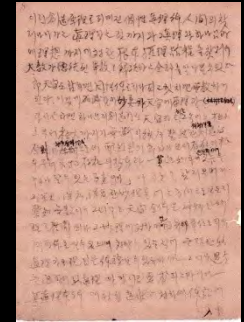

Without a doubt. God is alive.

As long as God exists and leads the providence for the Will centering on love, the world will have to enter the era of unity based on the cultural sphere of Gods love.

From this perspective, I disclosed why God created heaven and earth, how the creation of heaven and earth was carried out, and why God is love.

Whenever you carry the Divine Principle book around with you, you must treat it with great reverence.

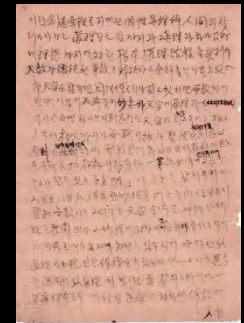

Imagine if you had the only existing copy.

Think about how serious I was to take care of *Wolli Wonbon* when I was writing the first manuscript.

What would have happened if that manuscript had been lost, or I had died?

I am telling you that such seriousness can determine the life or death of the world.

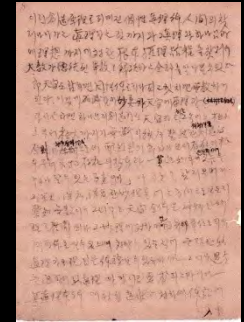

Centered on the Principle, and with the Principle.  
I have come this far.  
I laid its foundation with considerable hardships.

I invested my blood, sweat and tears as I was writing  
the Divine Principle book.

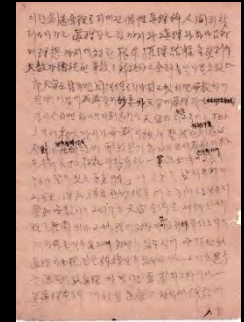

Please understand that my bloody tears are embedded  
in each and every one of its pages, and that those tears  
are crying out to you.

I invested my life and sacrificed my youth for the Principle.  
That is why I am saying that my blood and tears are pleading  
to you from its very pages.

**You must never go against the Principle.**  
Do not ever think the Principle I am teaching you is of no value.  
Even God solemnly bows down and honors it.

Such is the value of the Principle.

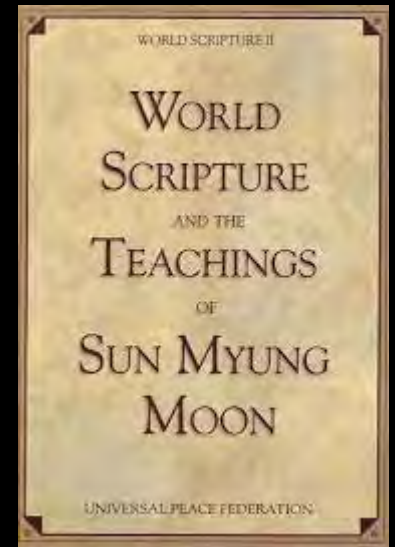

For this reason, in *Wolli Wonbon*, the meaning of "object partner" or "the value of the object partner" is presented as an entirely new concept.

Once you give and receive you come to have reciprocal relationship.

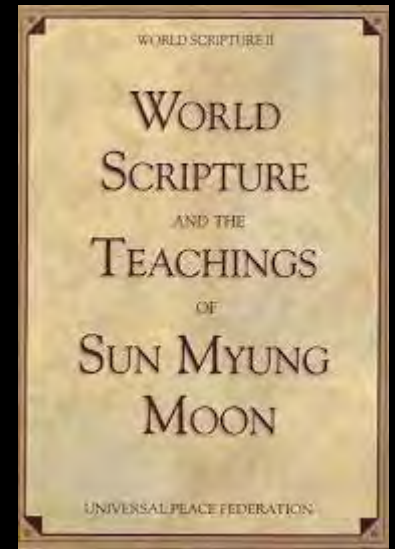

The more you give and receive with your counterpart, the better the relationship you will cultivate.

Hence, you will eventually become an object partner with him or her.

For this reason, if your activity centers on God, goodness or truth, it will surely last.

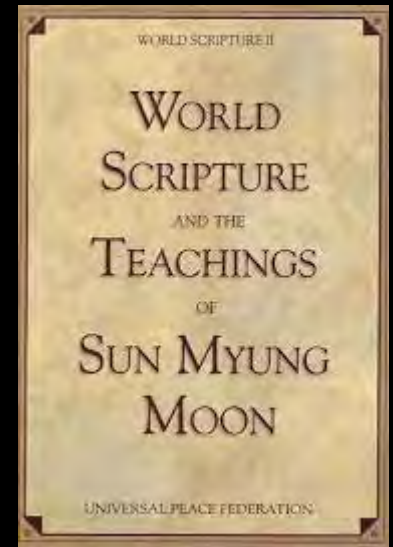

Among the disciples, Jesus loved Judas Iscariot in particular. He made Judas his object partner, through whom to restore God's primary Will. Jesus intended to use him in order to erect a woman in the position of Eve, but to do this they should fulfill the roles of the personages involved in the Fall.

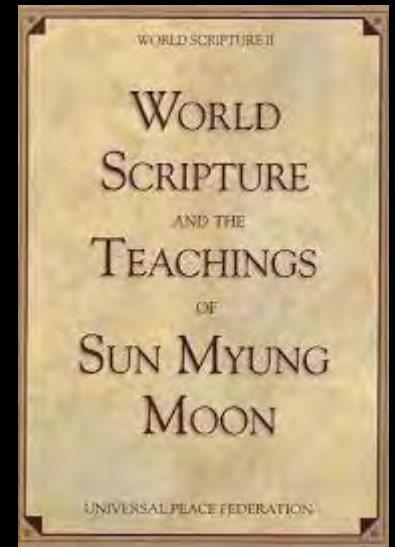

Specifically, God's Will required that Jesus set up Judas's wife as the new Eve. This woman was Mary Magdalene. She had been Judas' lover, but now as a disciple she was absolutely obedient to Jesus. So, just as Satan had taken Eve from Adam, Jesus [as Adam] planned to take Judas's woman to be the new Eve.

That way the three of them would fulfill God's will according to the Principle.

Accordingly, Jesus first acknowledged that Mary Magdalene belonged to Judas Iscariot. Then Jesus commenced the providence by choosing her to be his Eve.

While this fundamental providence was going on, in the meantime **Satan was fully on the attack, mobilizing the Pharisees and scribes against Jesus.** Regardless, had Judas Iscariot trusted, obeyed and attended Jesus in this matter, they would have established the foundation for the fulfillment of God's Will.

But Judas was full of discontent and confronted Jesus.  
That was the beginning of his rebellion against his Teacher,  
which culminated when he sold out the One Man unique  
in all human history for a mere 30 pieces of silver.

# Mother (*Hak Ja Han Moon*) liberated God to be our Heavenly Parent

- True Father was aware of this issue: *Wolli Wonbon*
  - When we know God and attend Him as our Father, and likewise when we know God and attend Her as our Mother, that is the time when the ideal of re-creation will commence on earth. We must know when this time is. We must have the experience of finding our Father and Mother once and for all. (55-56)

# Mother liberated God to be our Heavenly Parent

- True Father was aware of this issue: *Wolli Wonbon*
  - Throughout human history we have related to God only as our Father and not as our Mother. We have not even thought about why God had to become the Father, but not the Mother. Further, we have not even considered that the fundamental meaning of God is as our Parent—our Father and Mother. *How can we even fathom the pain and bitterness of God...* (278)

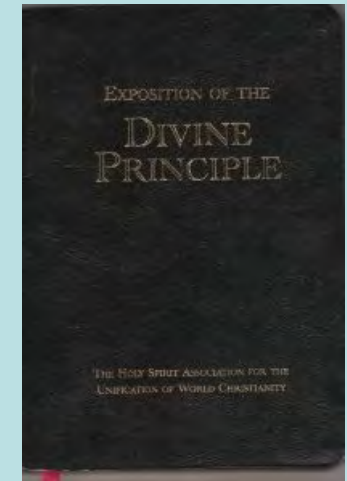

# Mother liberated God to be our Heavenly Parent

- True Father was aware of this issue: *Wolli Wonbon*
  - God must be inaugurated as the Heavenly Father and Heavenly Mother. Only then can we begin the ideal family as God's children. (278)
- Peace among the children requires the Mother's active involvement

- Divine Principle 1996 (rewritten)

- Divine Principle colored version 2005 (same text as 1996)

Curiosa; "Shimjung" = Heart before the Fall is missing in all Divine Principle versions, except Level 4, published 1980.

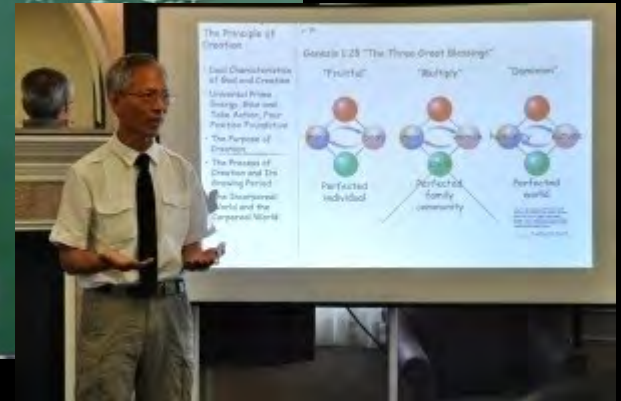

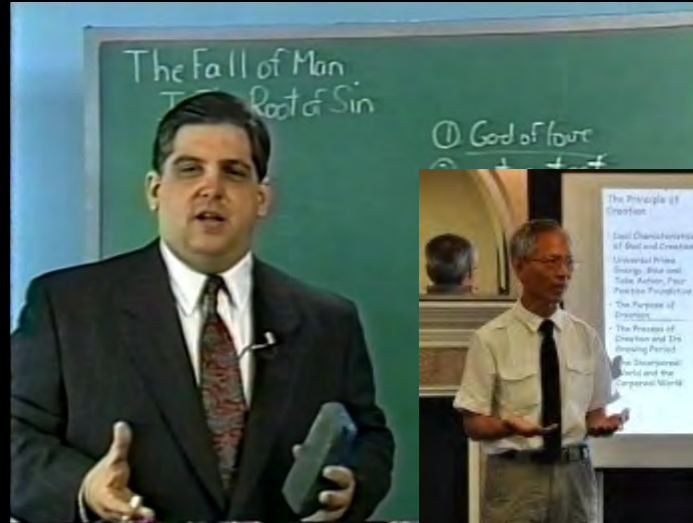

Heart (Shimjung, in Korean) is the essence of God's personality --The essence of his Sung Sang. Heart is the most vital part of his nature, such that all other attributes in him are what they are and do what they do solely because of the attribute.

Heart is the impulse to love and to be united in love with the object of its love. For this reason, Heart is said to be the source of love, and at the same time is the chief motive behind love. God's Heart has within itself its own purpose; so it is through God's love, through his Heart, that The Principle (Logos) is expressed.
