PRESS RELEASE N° 010

ENERGIC REJECT TO APOLOGY OF WAR IN NAME OF REVEREND SUN MYUNG MOON

By virtue of the faculty conferred upon me as Blessed Central Grand Rabbi, I address to all my sisters and brothers in the faith of the True Parents around the world, to reject the apology of war and violence, using the memory, the teachings and the good name of my teacher Reverend SUN MYUNG MOON (of blessed memory), through actions, publications, gestures and symbolic acts, and which is circulating in social networks.

This campaign of exaltation to Paramilitarism, is a clear APOSTASY against the doctrinal foundation and the hard work for the world peace, through the non-violent resolution of the conflicts, promoted by Reverend Moon during more than 70 years, and which are clearly exposed in his Autobiography, in the Divine Principle and in the Cheon Seong Gyeong.

I do a solemn calling to all the Unificationist leaders, so that they disavow to anyone who, using the memory, the good name, and even misrepresented readings or interpretations of the Father Moon's words and writings, exalts and defends in any way the calling to civilians to taking the weapons, war and violence.

I urge to civil authorities of the countries, to increasing efforts in order to preserve in the legislative, judicial and executive, the monopoly of arms by the State; the jealous protection of life, honor and property of the people by their respective Public Forces legally established; and the fight against all forms of Paramilitarism and the taking of weapons by the civilian population.

The mass circulation of this press release is appreciated.

Shalom! Pyeonghwa! Peace!
