

Humble and Sincere Request from the Bro. KP Bhattarai

March 10, 2010

Dear Respected Kishor Dai and all my brothers and Sister of GPA-Nepal

Greetings from KP Bhattarai

Dear Kishor Dai, thank you very much for your love and prayers towards me and my family. Dai I don't know from where I will start write. I have many things to write and I truly want to report you my current situation and what I realize towards current God's Providence after I meet True Father in palace.

Dear Dai I know you are counting the date when KP will come to Nepal with his family with the expectation that we can establish the GPA center in 75 district of Nepal by the year 2011, Which I have make the proposal with you with very clear strategy and determination before I left to Nepal on January 10, 2011.

Dear Dai after participating the GPF strategic leadership meeting in Korea, now almost after one and half months, with sincere and humble request from the bottom of my heart I am writing this email to you to stop all the activities of GPF in Nepal. I know first you will surprise and might be little bit angry for what I am asking you to do. But I know your heart and your understanding and the way of the thinking.

Dear Dai, in my 12 year fulltime life, among all Blessed Center Family of Nepal I have never meet the person like you. I always respect your sincerity towards God, True Parent and True Family; I can testify about your unshaken faith towards God and True Parents. I know how sincere you are for the use of public money. Dai because of you sincere effort we have a Divine Principle Cheong Seong Gyong and peace Message in Nepali language, and that is the only book we could have in our own language. Without your sincere effort and prayer it is not possible what we have accomplished in our country.

Dear Dai but now I am very sorry to say, the providence we are leading now in Nepal through GPF is not align with God and True Parents. Dai I know it is not because you don't have faith towards God and True Parent so you are leading the GPF in Nepal, it is also not because you want create the separate parallel movement in Nepal centering only on HJN and even also not because you want leadership and wants to go against Ek Nath and Current church leadership so you are leading the GPF. I still remember the final meeting in 2010, which was held in your home where Ek Nath Dhakal explained about the current providence and try to convince you to lead the GPF in Nepal. It is still very alive in my memory that even you and our Brother RRP totally rejected Ek Nath Dhakal's request in the beginning and even request him not to send VIPs to participate in Global Peace Convention in Manila (I am sorry Dai I also push you to lead the GPF in Nepal that time and decided to go Philippines next day with VIPs).

Dear Dai I know, in the beginning Ek Nath used all of us to lead the GPF in Nepal and convinced us that GPF is only the way to save True Parents providence in our country during that traction period and we believe him because he was our center figure, and it is because of our unshaken faiths towards God and True Parents. Dai I am sorry to say you that, the path we choose is wrong; I don't know whether Ek Nath guided us in this way because of his lack of understanding or with his ignorance about the current providence during that time.

Dai now how I can say that the path of current GPF is not connected with True Parents will is very simple. One thing when we work in GPF since last year we are never happy even a single movement even if we have many accomplishment, our heart always longing to meet our brothers and sisters whom we left. Second things is we never have 100% confidence that GPF is only way to get salvation for the humanity. This your words when last time on January 2011, during our meeting in JW Marriot Hotel in Seoul, when we asked you in your room "Dai do you think the providence now HJN is leading is the best and right way to accomplish the God's and True Parents' will and if not what you will do?" That time your reply is you don't know whether it is or not, but if it is not, then the only things remain for you is to make suicide. Your words really touch my heart and push me to really think deeply

whether we are really going the right way or not? Fortunately that time after completing our meeting myself and Dhruba dai went to Busan for FR and stay in church (I know the church leaders of Busan they loves Nepal and they always have heart to support Nepal, it was easy for us to hide our identity that we are belongs to GPF) suddenly during our few days stay in Busan one leader of Busan church ask us that they have a HDK with True Parents in Palace so whether we want to go for HDK in Palace or not? In the beginning we do not say any things, that day we to brother struggle so much whether we go or not, we asked question ourselves, if some people know that we are belongs to GPF and see in Palace than what will happen? But finally we two brother decided to go to see True Parents, because after time we don't when we will have chance to meet True Parents. After we visit father I came to realize that Father knows every things what is going on in current situation and Father is in pain, because we have blocked HJN to return to True Father.

Dear Kishor Dai, After attending True Father for 4 hours long HDK many question came to my mind, such as:

1. Is Hyun Jin Nim (HJN) loves True Father?
2. Is HJN want to Support to realize God and True Father's will as soon as possible?
3. Is HJN want to go to meet True Father?
4. Does HJN truly understand fathers' heart?

My answer is yes "because HJN himself told us about these things."

But then

1. It is truly necessary for HJN to lead the GPF to accomplish the fathers will?
2. Does GPF is only the way to connect people with Father?
3. Does GPF is the only providential organization that is why we are working to support father through GPF?
4. What is the best way to support father during this current transaction time?
5. What is the best way to protect the True Parents foundation in our country Nepal?

I might be wrong, but this is my realization,

1. It is not necessary for him to lead the GPF but rather he can completely unite with his younger brother Hyung Jin Nim, (currently what most of the other members of the True Family is doing) and support father becoming fathers' personal assistance. Who can serve father more than a filial son during this time, when Father is in his age of 92.
2. I absolutely believe that GPF is not only the way to connect people with father. Actually GPF has its limitation, the maximum we can do from the teaching of GPF is that we are from same origin, but it is also not effective method as we see from our own experience having GPF in Nepal. As a Blessed Center Family our role is to bring people with True parents so they can have chance to change their blood lineage. People will never have this realization through GPF it is only possible through our sincere dedication, and absolute teaching of Divine Principle. I know you also have realized during our meeting that GPF never can be the organization who can teach DP directly to the people. Through GPF activities we can never change the lineage of people.
3. You know more than me how much damage that True Parents have in worldwide level during this one and half year. I know it is not because of GPF, but it is because of conflict. I realize that if we continue the activities of GPF, the conflict will reach in much more bigger stage, where every foundation that True Parents' and our elders' have made will be completely lost. We will be wiser if we completely finished the existence of GPF from worldwide level, rather than we finished the existence of church. Because Father is in the currently the side of church so it is our responsibility to attend True Father. Father is the only person who can completely unite with God's heart and his will. I am really surprise to know after I visited Korea that Elder Brother Hyung Jin Nim is completely following fathers direction and almost all members of the true Family are now united with him to lead the providence in worldwide level. So why not we support him this time to solve the conflict of our movement.
4. The best way to support father during this current transaction time is not to associate with any activities. It is the responsibility of all Blessed Center Family. Only through this way we can help fathers to solve this problem, If we did not then we will block the way of Elder Brother Hyun Jin Nim to return back to father. So Dear Kishor Dai and all my brothers sisters please let's not block the way of Elder Brother Hyun Jin Nim. Let's give new hope to God and True Parents from the country of Pure Himalaya and Land of lord Buddha by stopping all the activities of GPF. Dear Kishor dai if you do not agree with me, then Please contact the

higher center figure and come to Korea (I know they will happy to bring you in front of True Parents, because you dissolve it) and meet the True Parents directly by yourself and if Father told you to continue the GPF activities, then I will never hesitate to go back with you and continue the GPF providence with whatever responsibility you give and I will even never ask you the allowance and offer 40% of my property as a offering.

5. I know it is not possible for all of us to work under the leadership of Ek Nath, in the current situation so The best way to protect True Parents foundation in Nepal is please stop all the activities of GPF and talk with our regional president for the common leadership and let's do the home church mission. I know if you request to all brothers sisters they will agree for any mission. And let's prepare for the next election. I am sure we can bring very substantial result with the common leadership and we can really make substantial victory in front of God and True Parents. You know already if we all united we can do many things for God and True Parents, but if we divide we will lose every things what we have accomplished in the past.

Dear brothers and sisters of Nepal, Specially now time has come that we all request to our elder brother Dr. Kishor Kumar Rajbhandari to stop the activities of GPF activities. I know you have done not any bad activities in the name of GPF. But problem here is without knowing we are allowing the conflict to exit in our country. Why not let's continue all our social activities under the name of True Parents. If you all humbly request our elder brother Dr. Kishor dai to stop the activities of GPF, I have no doubt that he will stop it in a single movement. We all know Kishor Dai, he will never hesitate to sacrifice every things for other. That is his lifestyle, so let's pray and humbly request Kishor Dai about it.

Specially dear Dhruva Dai, Saroj Dai, Ram Panta Dai, Deepak Ji, Bindu Dai, Balkrishna Ji you are the most responsible leaders, now the time has call you again to stand you all in the side of God and True Parents' to give new hope in Nepal. If you all united all our younger brothers sisters will also find the right way. You have sacrifice many things during your mission and you keep that strength to overcome all the challenge to bring substantial victory in our country. Once again let's sacrifice all the foundation of GPF that we have created in Nepal since last year to accomplish the biggest will of God and True Parents. Please help elder brother Kishor dai to make the greatest decision of his life, during this time and save the providence of God and True Parents.

Thank you very much once again for your love, prayer and supports.

May God and True Parents love and Blessing is always be with you and your family.

Sincerely Yours'
Brother KP Bhattarai.
