July 28, 2016

The KAMGA FOTSO family had a “Heavenly Tribal Messiah” activity in the “Yemsum” village in the Central Region of Cameroon in which they had done “pre-blessing” many years earlier.

Recently, about a month ago, after the HTM seminar held at Yaoundé HQ of Cameroon’s FFWPU, center, they re-contacted prominent people from the village who had received the pre-blessing.

After a few weeks of follow up, they got the current chief to appreciate their intentions and organize a meeting with village “notables” on the 20th of July 2016.

About 40 people participated and 34 signed up for the “blessing workshop”, that will take place on the 27th and 28th of July.

The lecturer Kamga Ernest Paul a second Generation explained that all “ills” originate from family breakdown starting with Adam and Eve disobeying God and Cain killing Able; that FFWPU will teach them how to restore the original ideal family, start afresh as couples and eventually build stable communities for sustainable development via “stable families”.

A chief from a neighboring village also participated and they are expecting more participants for the workshop of the 27th and 28th were the Blessing will take place.
