

Korean students arrive in Kiev for study

Mykhailo Ilin - December 29, 2018

On December 29, fifteen Korean second-generation high-school students arrived in Ukraine for a four-week English-language program. They were led by a five-person delegation of the Korea Multicultural Peace Federation, headed by the chairman, Mr. Son Byung Ho.

We had a solemn opening for the program at “Yellow Castle” center on Sunday, December 30. After that, the students actively started their classes led by our English-speaking staff, including Clara Berger, a second-generation Austrian Unificationist.

The Korean students were welcomed to join the New Year’s program at our training center and to see some places of interest in Kiev.
