

# Two Days Divine Principle Seminar

## How to restore human values

Bucharest, Romania, 5. – 6. April 2014

Bong Moon Jeong

**G**reetings from Romania!

The Workshop was for our guests who already graduated 2Day Workshop and more deep understanding the Divine Principle and True Parents' life. We tried to guide them through the Divine Principle lectures; we studied again about the Principle of Creation, Human Fall, Restoration, Eschatology, The Purpose of Messiah and the Second Advent, The workshop was more deep explanation with examples of life and responsibilities. The guest could find more answers for life and got new level of question. The guest wants to study more continually the Divine Principle and to read about True Parents' autobiography. Also she has desire to share with the others, friends and family about the great news what she found.

Also in these 2 days, because she spent this time with us in the Peace Embassy, she could experience this culture of ShimJung and the traditions that True Parents are teaching us; we had Hoon Dok Hae in the morning and sharing in the evening. We together could create beautiful family atmosphere.

Here are parts of her reflection:

**DD (22):** "I must love and be grateful in this moment for meeting such people, but also support their effort. I must prepare myself to teach; because as child cannot exist without parents, teachers do not exist without being students first! This is the path to restoration, this is the way to true love.

*Thank you Father for all the compassion and forgiveness you gave me! Aju!!!"*

**DI (20),** came as staff: "Every day we had new questions that gave us new reasons to reflect on or bring other questions to answers. It's a constant process of learning because of the stimulating environment.

*I hope that I will have always this occasion to rise up by learning more and more.*

*Thank you CARP. Thank you Reverend Moon for the lessons he left us." I'm happy that I could cook and that we could bake cookies together."*
