

STF Farewell Ceremony

Welcoming Korean Second Generation

Bucharest, Romania, 26. June 2016

I would like to start this report by offering our gratitude to our Heavenly Parents and True Parents.

We concluded our JeonDo activities of 1st semester before the summer activities with Special Sunday Service. In this semester we had 3 times of 40Days JeonSung condition period for JeonDo. And we offer our sincere devotion for Heavenly Parent and True Parents through focusing for JeonDo with uniting spirit of STF 2nd generations and Romanian young 1st generations.

This Special Sunday Service had 3 purposes. First, to offer our gratitude for STF team. Second, welcoming back our Romania SES brothers and sisters from 3 month MMBK experience Korea. And also welcoming Korean 2nd generations for our summer activities and make 'Brothers

hood, Sisters hood' ceremony with Romanian new CARP members who will participate summer activities.

Program started with joyful cheerful singing. And following the schedule with offering stand bow, family prege, prayer and speech from our national leader Mr. Jeong. His message was about how important is the relationship with Heavenly Parent. Because Heavenly Parent and our relationship is Parent-Child, His Will have to be our Will. After wards we invited all the STF brothers, sisters in front in order to offer our heart of gratitude through presents. And some of the brothers and sisters offer the testimony about 'JeonDo in Romania'. We could understand for all of them were meaningful and valuable experience with Heavenly Parent through JeonDo.

Waited program was 'Welcome Back Romania SES brothers and sisters!' Since the end of March our brothers and sisters who are in the SES program went to Korea as final experience of Heavenly Parent and True Parents ShimJung and 4 brothers and sisters came back victoriously. We listen their testimonies and we couldn't stop tears. Because we all could feel how much hardship they came through in order to understand deeply Heavenly Parent heart. They will be the team leader in this summer activities so they can experience next level of ShimJung. We all could feel they are the hope of Romania who realised Heavenly Preant's Will and who wants to live centered of Heavenly Parent and True Parents.

In the end we welcomed Korean 2nd generation brothers and sisters who came to participate Romania SES leadership tour 2016! This year we received 8 Korean brothers and sisters who has such a joyful positive spirit. And we organised 'Brothers hood, Sisters hood' ceremony with Romanian new CARP members who will participate also this summer activities. Our national leader Mr. Jeong called name of one Korean brother or sister and one Romanian brother or sister. And they came to in front, greet each other and offer the present which they prepared for this. All the Korean, Romanian brothers and sisters were so happy to recive brothers and sisters. They will experience every program together and they will be the real brothers and sisters through this summer program.

We are all happy to offer this time for Heavenly Parent and True Parents. Specially we could offer our result of this semester for Heavenly Parent and True Paretns. Of cause we never feel enough and we will offer better JeongSung next semester in order to offer bigger joy and hope for Heavenly Parent and True Parents.

Thank you so much..
