

One Day Divine Principle Workshop

Bucharest, Romania, June 9, 2018

Greetings from Romania!
 We concluded our 1st week of 68th JeongSung Condition period for JeonDo with successful 1 Day Divine Principle Workshop! We are so grateful for Heavenly Parent and True Parents for all these guidance and protection. All through workshop we could create joyful and positive atmosphere because of STF and GMP brothers and sisters. We organized Divine Principle lectures and discussions after each lecture. Because of this discussion time we could understand better about our new participants and we could create better relationships.

Divine Principle lectures were organized with 'Principle of Creation', 'Human Fall' and 'Introduction to Restoration'. Each lecturer prepared these lectures well from before in order to convey the Word. So, they gave a very clear message of Divine Principle. And All the participants could understand well the contents. Also, after each lecture we organized pair and had discussion time centered on questions. It was very good interaction with new participants and through this discussion all of us could understand deeper the contents. We are sure that this Divine Principle lectures were the time to receive life inspirations. All of us could feel the principle is working and existing in everywhere.

After the Divine Principle lectures we had lunch together. And we had team work activities after wards. We all went to the park near by CARP center. And we played team work games together. It was very interesting time to share as brothers and sisters.

All the new participants expressed their desire to learn more about Divine Principle. So, we will continue to support them to find out more through Divine Principle study. We will continue our JeonDo activities until the end of this period in order to give opportunities for more Romanian young people.

Thank you very much!
