

WFWP Romania Celebrates UN Women's Day in the heart of Bucharest

Magdalena Roxana Nicolae
March 15, 2026

The celebration took place in the heart of Bucharest's historical district at the Peace Center (9 Spatari Street, District 1). It was a vibrant gathering of 27 participants, including 8 new guests and 7 children (ages 5-10). Inviting families proved to be an excellent decision, as the children brought a wonderful energy to the event, especially during the dancing.

Program Highlights

I presented a retrospective of WFWP Romania's 2025 activities, highlighting:

The role of the women in the family, and how important it is to create harmony in the family and we are happy that men join us in celebrating International Women's Day (6 men and 3 boys).

The Bridge of Peace initiative with our Hungarian sisters.

Insights and take away from my attendance to Korea, and participation in Annual Meetings in Tirana and Madrid.

Sharing about the future possibilities of monthly meetings (via zoom), and community building and call to action.

Catering and Fellowship

As the event fell during the Orthodox Lent fast, I prepared a diverse menu to ensure all guests felt included:

Vegan Options: Homemade falafel, tabbouleh, hummus, and specially a vegan dark chocolate cake (made without eggs, milk, or butter).

International Selection: Beef bulgogi, rice, and kimchi for those not fasting.

Community Spirit: In a lovely gesture of initiative, two friends (new guests) also contributed additional snacks, fruits, and soft drinks.

Conclusion

The atmosphere was warm, inclusive, and joyful. The presentation of our international work combined with the family-friendly environment especially the kids dancing made for a very successful afternoon. The event was a beautiful success, leaving our members and guests feeling

inspired and connected.
