

Report of a 3-day Workshop for youth in Biel/Bienne, Switzerland

Noemi Komagata

August 9, 2018

From August 6 to 9, 2018, 7 young people between 12 and 17 participated in a 3-day workshop delivered in German in Biel/Bienne. The 6 first lectures of the four family loves, concerning filial and fraternal loves, were examined in discussions with many questions and examples.

Every day started with morning sport and many outdoor activities allowed the youth to reflect and breathe between the discussions. The whole house resonated with children's voices. Through the talks everyone was discovering new truth and getting to a new degree of awareness about themselves and their value. They also felt part of a big family sharing common values and goals, which gave them a sweet and necessary spiritual nourishment. The last talk was a summary of the previous lectures explaining in detail how to grow in a harmonious way and why WAIT and prepare oneself for the spouse for life.

Before writing their reflections, the youths went for a walk in the Taubenloch Gorge and to the animal park where all discovered the beauty of nature with new eyes and could communicate with nature while reflecting on the subjects they had discussed.

All the participants wrote their promise to keep their sexual purity until the Blessing and to remain faithful to their eternal spouse. Some of them wrote that they had received the most essential understanding on how to continue their development in life.
