Save the Date: Upcoming Matching and Blessing Workshops!

We are pleased to announce several upcoming BFD EUME Matching and Blessing Workshops, offering valuable education and support for those preparing for the Matching and Blessing. More detailed information will be shared soon. For now, please mark the dates below.

The next in-person BFD EUME Matching and Blessing Workshop for 1st Generation will take place in Camberg from 6th to 8th March. This workshop provides a meaningful space for learning, reflection, and guidance, with a programme designed to support participants in their preparation process.

An online BFD EUME Matching and Blessing Workshop is also planned, tentatively scheduled for 21st to 22nd March. This online workshop is an important opportunity for participants. It offers an accessible format for those who cannot attend in person while still engaging with essential Matching and Blessing education.

Additionally, the UK Matching and Blessing Workshop - Part 2 will take place on the weekend of March 13th in Stanton Fitzwarren. This is a follow-up workshop for those who attended Level 2 Part 1, continuing the learning and discussions begun in the earlier session.

More details, including schedules, registration information, and preparation materials, will be released soon. We warmly encourage all interested participants to save the dates and look out for further updates.
