### River South CARP Hold 2 Day WS!!

From 7th - 8th March, a 2-day workshop was held at Livingstone House in London, bringing together a total of 31 participants, including 7 guests.

The program featured four clear and engaging presentations, each of which sparked meaningful discussion and personal reflection. Participants explored themes connected to discovering the "Real Me," building friendships, and deepening their understanding of their own potential and their relationship with God.

Guests were especially open and enthusiastic throughout the weekend, contributing to an uplifting atmosphere and a shared sense of growth and connection.

Memories and friendships were made which even included singing together outside in the evening!
