March 14, 2026

Shin-Chul Moon (left) and Shin-Heung Moon (right)

On Saturday, March 14, we had the privilege of hosting a special Foundations session with Shin-Chul Moon and Shin-Heung Moon, the grandsons of True Parents.

While this was originally intended as a private gathering only for the Foundations program participants, the depth of honesty and the raw vulnerability shared by the brothers was so profound that we felt it was a precious gift that deserved to be shared with our wider community.

In this recording, you will witness a heart-to-heart encounter as the brothers pull back the curtain on their personal faith journeys, sharing how they navigated their own paths to discover a sincere relationship with God.

They offer a rare, firsthand perspective on True Mother's heart, grounded in their personal experiences of living alongside her.

From their candid stories to the answers, they provided during the Q and A, this session offers a unique bridge of heart that we believe will deeply resonate with anyone seeking a more personal connection to the True Family.

We invite you to find some time to watch this recording and experience the warmth and sincerity of this special meeting.
