### **United Football Games- A Movement of Unity, Hope, and Youth Empowerment!**

**The United Football Games (UFG) is an initiative founded in 2024 by Kenko W., a second-generation member from France, with the vision of bringing people together and inspiring young people through football...**

The event has previously been hosted in Wiltshire, and its purpose continues to grow in meaning and impact.

This year's edition will take place from July 1 to July 5 in Germany, gathering young players, communities, and supporters around shared values of sport, unity, and solidarity.

At a time when Europe is experiencing various challenges and divisions, the United Football Games seeks to create moments where people can come together, connect, and build positive experiences. Through football, the project aims to encourage unity, mutual respect, and hope among the younger generation. The spirit of the initiative is centred not merely on competition, but on strengthening bonds between communities and nurturing a culture of peace.

**How can you support?**

Those who wish to support the United Football Games can do so in several meaningful ways:

Following the project on social media

Sharing the initiative within their communities

Visiting the official website

Engaging with any of the support options shown in the provided image

Support does not need to be financial, even simply subscribing or following the project online helps expand its reach and contributes to its mission.

The organisers are excited to see how sports like football can continue to build peace, unity, and inspiration for the future. Any form of support offered plays an important part in helping this vision grow.

**Thanks for the support !**
