### Catch Up On All The CARP Activities In London!

CARP activities have been blossoming in London, helping to bring together both blessed children and new guests, see what they have been up to and about the team below...

CARP Activities were launched in London, along with other chapters across our EUME community, last month to help empower young people to grow in faith and leadership.

CARP in London has quickly become a vibrant hub for young people in RiverSouth to explore their faith, connect with like-minded peers, and develop leadership skills. Rooted in the teachings of the FFWPU and

inspired by True Parents, the initiative offers young, first-generation individuals a welcoming platform to engage with spiritual and personal growth.

London's diverse and multicultural environment has enriched CARP's community, helping to bring in a wide range of guests - people attending for the first time - to experience its programs. Meetings are thriving, regularly attracting around 30 attendees each week, creating a warm and engaging atmosphere for all participants.

#### **The different activities CARP is hosting:**

CARP London hosts a variety of activities tailored to nurture faith, leadership, and social connection:

CARP Social: Casual gatherings where guests and members study life principles in a relaxed, friendly setting.

CARP Core: A space for young members to deepen their faith and enhance their leadership skills.

2-Day CARP Workshops: Intensive programs focused on personal and spiritual development.

Witnessing Support: Members actively engage in witnessing efforts alongside UPA missionaries and Greenwich CARP.

**Looking Ahead at Growth and Service**

CARP London has ambitious plans for the future. Upcoming initiatives include community service projects such as litter picking, food bank support, soup kitchens, and charity events. The chapter also aims to develop an educational course for both guests and members, providing a structured path for learning and growth.

A key goal is to empower young people to gain leadership experience within their own community, without needing to attend a gap year program. This could pave the way for future CARP cadets, fostering the next generation of leaders in faith and service.

By nurturing its existing community while building bridges to the wider world, CARP London continues to create a supportive and inspiring environment where young people can grow spiritually, socially, and personally.

Those helping to run CARP activities have said:

"CARP was re-ignited out of a sincere desire to take care of our young adult membership and reach out to the wider world"

"Our beloved True Parent's have expressed the importance of youth time and time again. They have shared how it is a time in which we can cause big impacts on the world around us, granted initiative is taken to become greater leaders."

The new leadership at CARP truly wishes to create the environment for young people to take that initiative and grow into the leaders of the future.

We look forwards to seeing what else they get up to !
