Dear brothers and sisters,

Many greetings on a sunny November morning in Stanton.

Our thoughts are with True Mother. On Monday, December 1 is the first formal trial session at the Seoul Central District Court. Thank you for your expressions of heart and support through fasting, prayer, etc. If you can, please join the last days of the fasting chain, December 1 to 5.

Meditating on True Mother, her life and the situation she finds herself in, the following words by True Father on Moses' time in the desert of Midian resonated deeply with us:

"Don't you think that there would have been attacks from wolves and snakes when he took care of the sheep? However, no matter how much danger, loneliness, and despair seemingly surrounded him, he thought the reason why he came to be in such a situation was not because of others (the Israelites), but that it was for God. Moses, who came to that great inner awakening, thought, 'I will be loyal to God until the day God's Will is fulfilled.'"

We hope that you can also draw strength and genuine encouragement from this deep mindset, taught and modelled by our True Parents.

In Peace and Harmony,

Bogdan and Yoshiko
