

Japan & Korea Trip Blog: Days 12 – 15: The Final Hours

Teresa Rischl

July 7, 2017

Day 12

This day was a long travel day back to Japan.

Day 13

After the many inspirations and blessings everyone had received throughout this trip, we took some time to separate into CARP chapters to make determinations and goals! Everyone felt strongly to build up their CARP chapters or even to start a chapter at a new campus to further True Parents' vision.

It was a wonderful experience to reflect and set goals together.

J-CARP also came to teach the Mujokkon dance to CARP America who were asked by True Mother to perform at the Madison Square Garden event on July 15. Learning the dance in just a few hours was a challenge, but they managed it well and performed it for President Tokuno and President Motoyama and

his wife later that day.

Afterward, CARP America performed at an Open Mic night as part of the last full night together with J-CARP.

Day 14

After a long two weeks of sharing ideas, values, and other internal guidance, the students from Japan and America could have a fun-filled day at Disneyland!

Day 15

Our closing ceremony was not without tears as everyone said good-bye to one another and gave gifts of appreciation to their staff. We hope this trip has inspired all the students from both continents and we hope to bring an even stronger determination into the next semester!
