

3rd Annual CARP Hyojeong Trip to Japan and Korea: Day 10 – 7/5/18

Teresa Rischl
July 5, 2018

Peace and Pilgrimage! Today, we gathered at the border between North and South Korea and held a rally to proclaim that peaceful reunification will happen through the agency of True Love. In the shadow of North Korea, we could feel the seriousness and the tragedy that the Korean people and the world as a whole were living in.

We prayed at the fence and cried for the border to come down. This was a similar rally that we held to last year, except this year it feels more like a possibility with the recent Summits between the leaders of both Koreas and with President Trump and Kim Jong Un.

After proclaiming and praying for peninsular peace, we traveled to three different historical places in Father and Mother Moon's history. Two of them were previous residences of Father and Mother Moon. Through being in the places where they shed many tears and endured many hardships opened up the participants' hearts to connecting more with Father and Mother Moon's vision.

Even in the shabbiest of places, Father and Mother Moon held big dreams for world peace and worked harder and sacrificed more than anyone else to make that happen. By visiting the places, participants could inherit what Father and Mother Moon tried to accomplish and make determinations based on that.

God bless Korea and our determinations for the future!
