“What a good read. Mr. Tony Scazzero’s last book, “The Return of Mother God: The Feminine Essence of Our Creator” is a must read. He challenges the reader to think outside the box. He addresses key understandings of the deeper nature of the Holy Spirit (p. 61) in the chapter “How Do I Relate with Mother God.” His book enhances the precious and wonderful role of women in our society (p. 77) in the chapter “Mother God: Parent and Role Model for Women.”

Finally, he stimulates the reader to explore more deeper into the healing, loving nature of God which he calls, “Mother God” (p.148) in the chapter “The Search for Peace.” It stimulated me to think more broadly on the dual nature of the Creator and that in doing so he reassures the reader that a more peaceful, loving world can come about.” As Mr. Scazzero states “only through women and Mother God can the world get back on track.” Thank you Mr. Scazzero for your hard work and dedication to this topic.
