

FFWPU Thailand's Blessing Candidate Workshop at Thailand Headquarters

Kamol Thananopavarn
February 15, 2026

On February 14 - 15, 2026, the Blessed Family Department (BFD) Thailand hosted a successful two-day Blessing Candidate Workshop at the FFWPU Thailand headquarters. With 12 participants in attendance, the event fostered a sincere and focused environment dedicated to learning, reflection, and spiritual growth.

Foundational Teachings and Doctrine

Throughout the weekend, participants explored the core theological pillars of the Blessing providence. The curriculum included:

Heavenly Parent's Ideal: The original purpose of creation and marriage.

The Human Fall: Understanding the change of lineage and the need for restoration.

The Providential Value of the Blessing: The sacred significance of the Marriage Blessing.

The Way of Faith: Establishing traditions that lead toward the Heavenly Kingdom.

These sessions provided a robust doctrinal foundation, helping candidates grasp the profound responsibility associated with their upcoming path.

Deep Reflection and Practical Application

To move beyond theoretical knowledge, each lecture was paired with guided group discussions. Participants reflected deeply on:

The Three Great Blessings

The Four Great Realms of Heart
Preserving Heavenly Lineage

"Rather than remaining purely academic, the teachings were framed as practical tools for personal life and future family responsibilities."

Interactive Learning and Personal Testimonies

The workshop effectively balanced education with active engagement. Interactive Kahoot activities were used to reinforce key concepts in a fun, high-energy way, while small-group sessions provided a safe space for open sharing.

A highlight of the program was a testimony from two Blessed Families. Their stories provided grounded, practical insights into how the Blessing is lived out in daily life - offering both encouragement and a realistic perspective to the candidates.

Internal Preparation: "Becoming the Right Person"

A central theme of the weekend was the importance of internal growth. During the session titled "Becoming the Right Person," participants were encouraged to prioritize:

Character Development: Building emotional maturity and integrity.

Self-Responsibility: Preparing for the matching process by first centering oneself.

Personal Growth: Recognizing that the Blessing begins with the individual's spiritual state.

A Renewed Commitment

The workshop concluded with a sense of clarity, renewed determination, and a joyful group photo. Participants departed with a deeper understanding of the Blessing as both a sacred gift and a lifelong commitment.

BFD Thailand remains dedicated to supporting these candidates as they continue their journey toward building blessed families centered on True Love and heavenly tradition.
