

FFWPU Australia: Rising as One - 2026 Australia Winter Youth Workshop

John Adamedes

July 12, 2026

From July 6 - 12, 2026, the Australia Winter Workshop was held in Melbourne under the theme "Flowing as One, We Rise as a Wave." The workshop focused on the spiritual growth of our second- and third-generation Blessed Children, encouraging them to become "Pure Water" centered on True Mother. A total of 20 participants, aged 7 to 16, gathered from Sydney and Melbourne for this meaningful gathering.

Throughout the week, participants attended lectures on Heavenly Parent's dream, the Human Fall, and the overall Providence of Restoration based on the Cham Bum Ron teachings, alongside the epic history of the chosen Han people of Korea. They deeply explored the providential significance of becoming "Pure Water," learning that this identity is rooted in their personal relationship with and connection to True Parents.

Every workshop activity was thoughtfully designed to complement the daily lectures. Participants were able to deepen their intellectual understanding while cultivating hearts of hyojeong (filial piety) and strengthening their bonds as a spiritual family.

For example, daily Korean language classes gave participants an hour each day to learn the language of True Parents. By practicing the language and experiencing Korean family culture within the community, they built a stronger foundation for understanding the world of Shimjeong (heart) and True Parents' vision.

The workshop also offered dedicated time for quiet reflection. Participants set personal goals for their life of faith and wrote sincere promises and letters of hyojeong to True Parents. Below is a moving letter written by one of the participants:

Dear Heavenly Parent,

Thank You for guiding me and loving me throughout my whole life. I am truly grateful that You gave me a loving and kind family who cares for me. Please forgive me for my mistakes, and please help me become as pure as possible.

One day, I hope I can meet True Mother. I know she is carrying a heavy burden and is getting older every year. Please help her live a long life so that not only I, but many others, may have the opportunity to meet her.

I love You so much, and I believe that You are the one and only God. I also believe that True Parents, Jesus, Moses, and all those who faithfully followed Your word should be respected and remembered.

You are so kind and loving. Thank You for always forgiving me, even when I make mistakes. Even after the Human Fall, You never gave up on humanity. I know You have worked so hard for this world, and I am truly grateful. I love You.

Love, Vera

Through this Winter Workshop, our 2nd and 3rd generation Blessed Children deepened their hearts, strengthened their bond with True Mother, and made fresh resolutions to grow in faith. They leave prepared to live as "Pure Water" that shines as a light to the world.

The growth of our young people is the true hope of the Providence. We remain committed to continuing this work to help our children thrive as true sons and daughters of Heavenly Parent and True Parents.
