The recent developments in the Greater Middle East region, dramatically improving and renewing relations between Israel, Bahrain, the United Arab Emirates, Sudan, and Morocco, signify a potentially historic turning point toward regional co-operation, peace, and prosperity. Of course views vary widely across the region. This series of webinars engages views from the Middle East and North Africa, Europe and North America, with current and former heads of state and government, parliamentarians, UPF associates, friends and thought leaders participating. This webinar will focus on the Tripartite Agreement signed by Morocco, Israel and the USA.
