

Being a Successful Tribal Messiah in the USA - Holy Blessing or Peace Blessing

Esther Faith Batino

Photo date and location unknown

Hello,

Greetings from Massachusetts!

Thank you so much for your interest about the Holy Blessing or peace Blessing matters. Not all Blessed couples are still on the same page with what True Mother wants to achieve as part of her Vision 2020 goals. I have been witnessing to people since I joined in 1980 in my native home country, the Philippines.

As a missionary to USA, since 1990, I was constantly in different mobilizations and campaign of one sort or another. My early 90's to mid-90's in the USA has been enjoyable for me, but - my constant longing was always to witness to my family back home. That was fulfilled, when in early 1995, I got my US resident visa, that allows me to fly to my home country and my re-entry is guaranteed. So, for that whole year, while I was pregnant with my first daughter - I was witnessing in the Philippines with my sp. daughter from Japan. In 1995, we blessed my husband's side of the family. And since then, I am going back and forth between the 2 countries. I spent, 3 years in the Philippines, with my 3 girls in Asia, from 2011 to 2014. When the Vision 2020 and Tribal Messiah providence was launched formally in Korea, I was in CPL attending 40-day WS.

I did tribal messiah providence in the Philippines, during their pioneering stage. I saw the formation of their outreach program from the start. I actively join in witnessing and Blessing my Cain tribe, and also

some of my Abel Tribal members. So, when I came back to USA, with my children - it was just a matter of continuing where I left off, still on the frontline: witnessing, blessing and working to have funds for our spiritual work. American Blessing providence, was not even clear when I arrived, but - I went ahead and worked with my spiritual children, visiting them in different States, with the support of my husband. In the meantime, American Blessing providence was taking shape slowly and Pastor Demian Dunkley pioneered an approach which is fit for American witnessing/blessing target. It has been sometime that I was unsure what the standard of Blessing in North America is like.

With my experience from the Philippines; I know that their standard is strict and at the same time, some are not clear, as to who can really declare that one is able to fulfill the 430 couples' Blessing goal. My connection to North America Tribal Messiah work was also very weak, maybe - because my State and city of Worcester is not really big on it.

Then, Freda Buczyk, my American friend informed me about the Certification and recent development of Blessing Officiators - which I got connected, so - our couple immediately applied and got certified. Not long after that, my friend from Minnesota invited me to be a part of Tribal Network for North America FB group and more and more I got informed of the quick inspiring developments of Tribal Messiah providence in North America and our couple got invited to attend the First Tribal Leaders Conference in IPEC, Las Vegas and there - I realized that there are reporting system and data gathering going on at the national Witnessing Dept. in NY HQ already and I didn't hear anything about it before. While listening to the testimonies of the declared achievers I realized that, for North America - their 430 Blessing Couples standard is still at the Holy Wine ceremony level only. It is enough for the couples to be counted and just to submit the name list for now is okay. Then, I realized that we had more than 700 of that category already. So, in the beginning of January 2018, I selected 430 couples (my most active contacts) from the 700 names and submitted it to the National HQ Witnessing Dept. and they accepted it.

All of these 430 couples were not just met at a parking lot or from the streets but, most of them got Blessed by a Certified officiator and just need to do tanggam/40-day separation/3-day ceremony for around 60% of them. And, several of my tribal members in the Network - are already tribal messiah leaders themselves (maybe 10%).

I was so eager to report, for the sake of my husband and children who were with me this past 5 years, as I was/am in the frontline doing the tribal messiah providence ... sometimes with my girls, who reluctantly - just follow my lead.

The work of restoring these 430 couples and their families is just beginning, many more tears, sweat and efforts are needed but, this is a very hopeful beginning: for God and for mankind. I am grateful that True Mother wanted to reward us, even our efforts were still small. And, I was just happy to sit back and happily sent my husband to go to Korea to represent our family, because - I am processing my US Citizenship now, and I still need several months to stay in USA before I can qualify to apply. Due to my many travels outside in the past, I didn't satisfy the requirement for my residency in American soil. Anyway, there's also a lot of restoration tasks that I need to do here with my tribe in USA!

I am sharing this story to you because, for us any more questions we have, can be directed to Pastor Dunkley or email to Kar Olson at evangelism@unification.org.

Thank you for your prayers and thank you for reading my story. I have many, many Tribal Outreach testimonies and stories, but - I can share a few of them for you below.

Sincerely,

Esther Batino
